## The Structure of the CPI

The CPI consists of six dimensions. Each dimension has a series of subindices or dimensions, which in turn include numerous indicators that allow specific index calculation. In this sense, the CPI produces six subindices related to the six dimensions of prosperity: Productivity, Infrastructure Development, Quality of Life, Equity and Social Inclusion, Environmental Sustainability and Urban governance and Legislation. The aggregation of these six sub-indices generated a consolidated value representing the CPI.

## CPI Results

	CPI
Productivity	48.06
Infrastructure Development	57.11
Quality of Life	68.31
Equity and Social Inclusion	71.65
Environmental Sustainability	56.71
Urban Governance and Legislation	72.03
City Prosperity Index	61.64

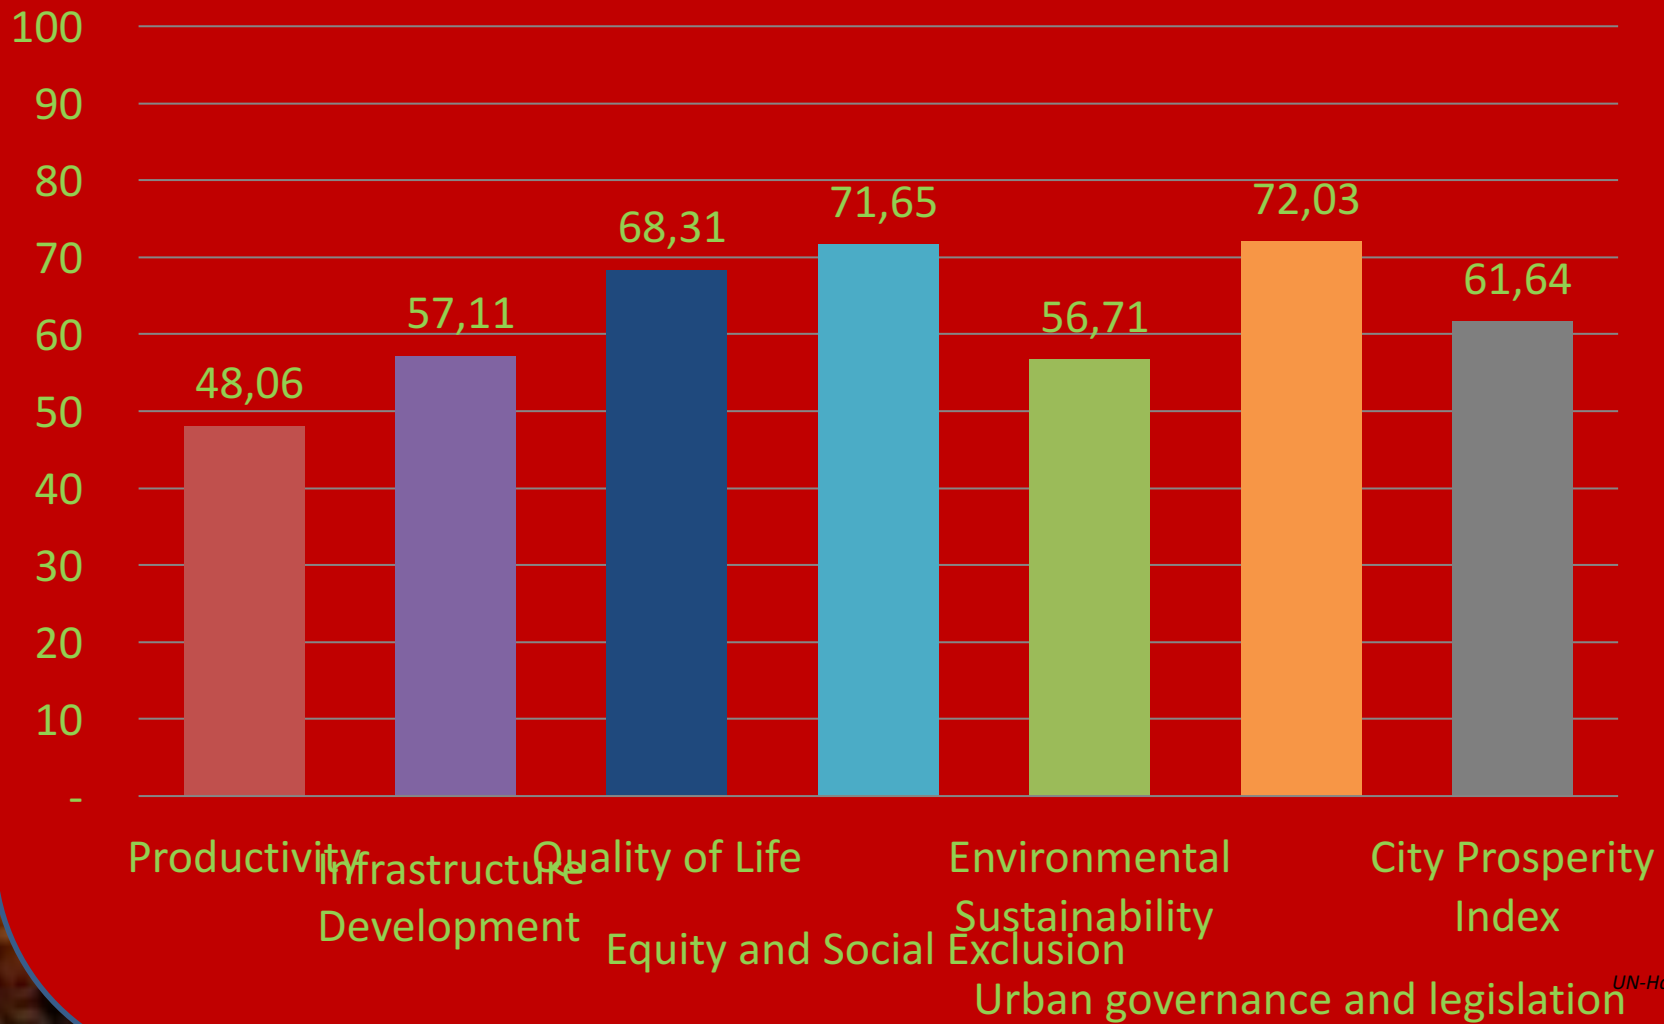

\*Values are estimated for training purposes and should not be quoted.
