> Policy Implementation
> Conclusion

1. **Reduce Poverty and Social Exclusion**
2. **Achieve Universal Primary Education**
3. **Promote Gender Equality and Empower Women**
4. **Reduce Child Mortality**
5. **Improve Maternal Health**
6. **Combat HIV/AIDS and Tuberculosis**
7. **Ensure Environmental Sustainability**
8. **Partnership for Development**

Vision: “spare no effort to free our fellow men, women and children from the abject and dehumanizing conditions of extreme poverty”

Adopted in 2000 by 189 UN member states

8 goals, supported by 21 specific targets and 60 indicators.

MDGs impacts by 2015

Global number of deaths of children under five
- 1990: 12.7 million
- 2015: 6 million

Extreme poverty rate in developing countries
- 1990: 47%
- 2015: 14%

1.9 billion people have gained access to piped drinking water since 1990

2.3 billion
1990

4.2 billion
2015
**MDGs limitations**

The MDGs were largely determined by OECD countries and international donor agencies in a top-down method.

The MDGs provide limited list of goals, with targets that applied primarily to least developed and poor countries.

The MDGs failed to consider the root causes of poverty and the interconnectedness of these causes.

Just 1 MDG (MDG 8: Develop a global partnership for development) focused on high-income countries.

Progress across all MDGs has been limited and uneven across countries.

---

**Sustainable Development Goals (2015 – 2030)**

Sustainable Development Goals (SDGs)

- United Nations Sustainable Development Summit 2015
- The Sustainable Development Goals (SDGs), otherwise known as the Global Goals, are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity.

The 2030 Agenda for Sustainable Development

The “Agenda 2030” reinforces the Future We Want – applying to all nations and leaving no one behind.

1. Agenda
5. Main areas
17. Task description
169. Targets
240. Indicators

People, Planet, Prosperity, Peace, Partnership
The 2030 Agenda for Sustainable Development gives a prominent role to urbanization and cities with the inclusion of a stand-alone goal for cities and human settlements.

- Recognition that cities are a string that connects all other goals together
- Interactions are important to formulate integrated policies that enhance the transformative role of urbanization

Make cities and human settlements
- Inclusive
- Safe
- Resilient
- Sustainable

SDG11 – Ten targets

**Outcome-oriented targets and indicators**
- 11.1 Housing and slums
- 11.2 Sustainable transport
- 11.3 Participatory planning
- 11.4 Cultural heritage
- 11.5 Disaster reduction
- 11.6 Air quality and waste management
- 11.7 Public spaces

**Process-oriented targets and indicators**
- 11.a Urban-rural linkages
- 11.b Implementation of mitigation and adaptation plans and policies
- 11.c Sustainable and resilient buildings
SDG11 – The process

3 global consultations about indicators – once targets were decided (Member States/Stakeholders/UN Agencies)

3 platform for online comments

2 ratings of proposed indicators (Tiers 1 to 3 – color codes)

3 Inter-Agency and Expert Group (IA-EG) (New York, Bangkok, Mexico City)

2 Reports (IA-EG for UNSC and SG Report about Implementation)

The 2030 Agenda for Sustainable Development

SDG 11 Explained by Raf Tuts Director, Programme Division UN-Habitat October 1, 2015
CPI and the SDGs

A tool to monitor and implement the SDG urban-related goals

Decision-making based on evidence through the integration of the international Development Agenda
UN HABITAT roles

Implementation
- Country Implementation Plans
- Localize Action at city level
- Defining Habitat Strategic Interventions

Monitoring
- National targets, benchmark and standards
- Disaggregation of information
- City Prosperity Initiative

Reporting
- National aggregated values
- National/local reports
- Action Plans (CPI/3 Legged Approach)

UN HABITAT ongoing portfolio

1. **Refining Urban SDGs Indicators:** Propose to the Secretariat (UNSD) methodological information and/or data support to change indicators
2. **Expert Group Meetings:** Discuss and agree on the approach, methodology and ways of computation of specific indicators with outstanding challenges related to the monitoring of the SDGs at local levels, particularly spatial indicators
3. **SDG Goal 11 Indicators - Definitions and Metadata:**
   - A **Global Monitoring Tool** that serves as a guide to assist national and local governments in their efforts to collect, analyze, validate data and information in view of the preparation of country-based reports.
   - The Metadata provides necessary definitions, method of computation and technics to estimate indicators, including spatial indicators
UN HABITAT ongoing portfolio (cont)

4. **UN-Habitat SDGs Webpage**: A website dedicated to UN-Habitat approach, involvement and support to SDGs, with a particular focus on Goal 11

5. **SDGs Report**: joint with other UN agencies to develop the global progress report on the SDGs

6. **City Prosperity Initiative**
   - The new CPI framework is integrating all the indicators of Goal 11 and a selected number of other SDG indicators that have an urban component
   - Countries that decide to use the CPI will be able to identify, quantify, evaluate, monitor and report on progress made by cities and countries, towards SDG Goal 11 in a more structured manner

NEW URBAN AGENDA
UN Conferences on Human Settlements

The United Nations Conference on Housing and Sustainable Urban Development to “reinvigorate” the global political commitment to sustainable urban development

UN Conference on Human Settlements, 1976
Vancouver

Habitat II, 1996
Istanbul

Habitat III, 2016
Quito

Habitat III: The need for a New Urban Agenda

[Infographic drawn by Español C. Garcia]
What is in the New Urban Agenda?

- Action-oriented document rethinking the way we build, manage and live in cities
- 175 commitments that 190 nations have signed on
- Largely be cities rather than nations that first define, innovate, then implement them

New Urban Agenda

- Must be BOLD, forward thinking and tightly focused on problem solving
- It should have clear means of implementation
- Adopt a city-wide approach
- Propose concrete strategies and actions
- Create a mutually reinforcing relationship between urbanization and development
- Support a paradigm shift
- Devise well-activated set of strategies
- Transform urbanization into a tool of development
- Constitute a framework of cooperation
- Convey a SEN SE OF URGENCY
New Urban Agenda

5 GUIDING PRINCIPLES FOR THE NEW URBAN AGENDA

4 COMPONENTS
- National Urban Policies
- Rules and Regulations
- Territorial planning and Design
- Municipal Finance

7 LEVERS
- Planned city extensions
- Planned city infills
- Land readjustment
- Public space planning and regulations
- Housing at the centre
- Access to basic services
- Global monitoring framework

SUSTAINABLE CITIES

Habitat conferences

IN HABITAT III, WE DECIDE THE FUTURE OF CITIES TOGETHER

UN HABITAT III, Quito 2016
We share a vision of cities for all, referring to the equal use and enjoyment of cities and human settlements, seeking to promote inclusivity and ensure that all inhabitants, of present and future generations, without discrimination of any kind, are able to inhabit and produce just, safe, healthy, accessible, affordable, resilient and sustainable cities and human settlements to foster prosperity and quality of life for all.
Three Transformative Commitments

A. **Equity**: Urban Development for Social Inclusion and Ending Poverty (18 points)
   - land tenure, the value of public space, and the sustainable leverage of natural and cultural heritage

B. **Inclusivity**: Urban Prosperity and Opportunities for All (20 points)
   - Access to affordable housing, access to knowledge, skills, and education, and the promotion of investments, innovations and entrepreneurship

C. **Sustainability**: Resilient Urban Development (18 points)
   - Climate change, unsustainable consumption, slum upgrading, energy efficiency and the social and ecological function of land
Conclusion

“The SDGs, the New Urban Agenda, the Paris Agreement — these are really important policy bricks that we’re going to use to build the cities of the 21st century. But ultimately it’s going to be local people, local governments and local ecosystems that are the cement that bind them together in a lasting way.”
New Urban Agenda – Policy points

1. Forward looking and problem solving;
2. Adopt a city-wide approach (strong integration) to development
3. Clear funding mechanisms and effective means of monitoring
4. A sense of urgency in the implementation but also clear and well-defined implementation plans
5. Seek mutually reinforcing relationship between urbanization and development
6. Establish links to other global agreements and agendas
7. Induce transformative change promoting a new urbanization model that is universal and adaptable to different national circumstances

UN HABITAT next steps

1. Implementing SDG - Localize Actions at city level
   - Providing support to local and national governments to reflect the new global agenda in city and country development plans and policies
   - Making the UN-Habitat’s policy expertise on sustainable urban development available to governments at all stages of implementation

2. Monitoring SDGs - Spatial Indicators
   - Geospatial data, adequate technology and management system will be needed for the measurement of the spatial indicators of the Goal 11
   - Spatial disaggregated data provides relevant information for policy-makers to decide on local-level allocation of resources and monitoring of equitable outcomes

3. Reporting SDGs - National Sample of Cities
   - National governments need to create a consistent set of cities that is representative of their territory, geography, governance and history.
   - UN-Habitat will support national governments in the definition of a sample of representative cities and in the data aggregation process

4. Connecting SDGs and the New Urban Agenda
   - A strong connection between the New Urban Agenda and the SDGs indicators should be established with a common monitoring framework
Connecting SDGs and the New Urban Agenda

11.a National Urban Policy
11.b Disaster risk reduction
11.3 Land consumption
11.7 Open space
8.1.1 City Product per Capita
10.1.1 Growth Rate 40%

1. National Urban Policies
2. Urban Legislation and Systems of Governance
3. Territorial Planning and Urban Design
4. Municipal Finance

The next BIG challenges

1. Refine disaggregation mechanisms and policy responses, look for more convergence among Head Quarter and regions.
2. Refine UN-Habitat advocacy for this new agenda (SDGs-NUA)
3. Rethink financing and fundraising strategies
4. Adjust strategic plans for the implementation and monitoring of SDGs and New Urban Agenda
5. Adjusting outputs from Habitat Work Plan to reflect 2030 Development Agenda
6. Define ad hoc training and capacity development activities
7. Explore new strategic partnerships – Multi Partners Trust Fund
Conclusion

“The SDGs, the New Urban Agenda, the Paris Agreement — these are really important policy bricks that we’re going to use to build the cities of the 21st century. But ultimately it’s going to be local people, local governments and local ecosystems that are the cement that bind them together in a lasting way.”
