3

Roads & Transportation

2

- ✓ Roads Improvement
- ✓ Transport Accessibility

Boane Municipality

Aims & Goals

Having solved the problems / challenges mentioned above, we would **improve the quality of life** in our Municipality and **attract more investment**.

In the area of water supply and sanitation we have the partnership of **Government of Mozambique** and other no governmental organizations linked to this area in our country. These partners finance the construction of Water Supply Systems for residents.

In the areas of Roads, we have as partner the **Government of Mozambique**, who transfers small funds to the municipality for interventions on the streets.

In the Transports area we count on the partnership of the **neighboring Municipalities, Matola and Maputo**, Which extends its transport system to Boane, helping us alleviate this problem
