

THE REPUBLIC OF UGANDA

Slum Upgrading Efforts in Kampala Uganda.

By

Hon Jennipher Kacha Namuyangu
Minister of State for Local Government

UGANDA

August 2018

Background

Challenges of Urbanization In Uganda Today

- ❑ Population growth is faster than the rate of provision of basic services like water, sanitation, drainage, electricity, roads and waste management facilities.
- ❑ Inadequate capacities of urban managers to implement physical development plans.
- ❑ Rural-urban migration challenges
- ❑ Low industrial production capacities of the current urban areas.

Urban Challenges

Poor housing settlements

What is Government doing?

- Up grading slums
- Slum prevention
- Physical planning
- Urban renewal and infrastructure dev't
- Provision of social services
