URBAN STATISTICS 2013

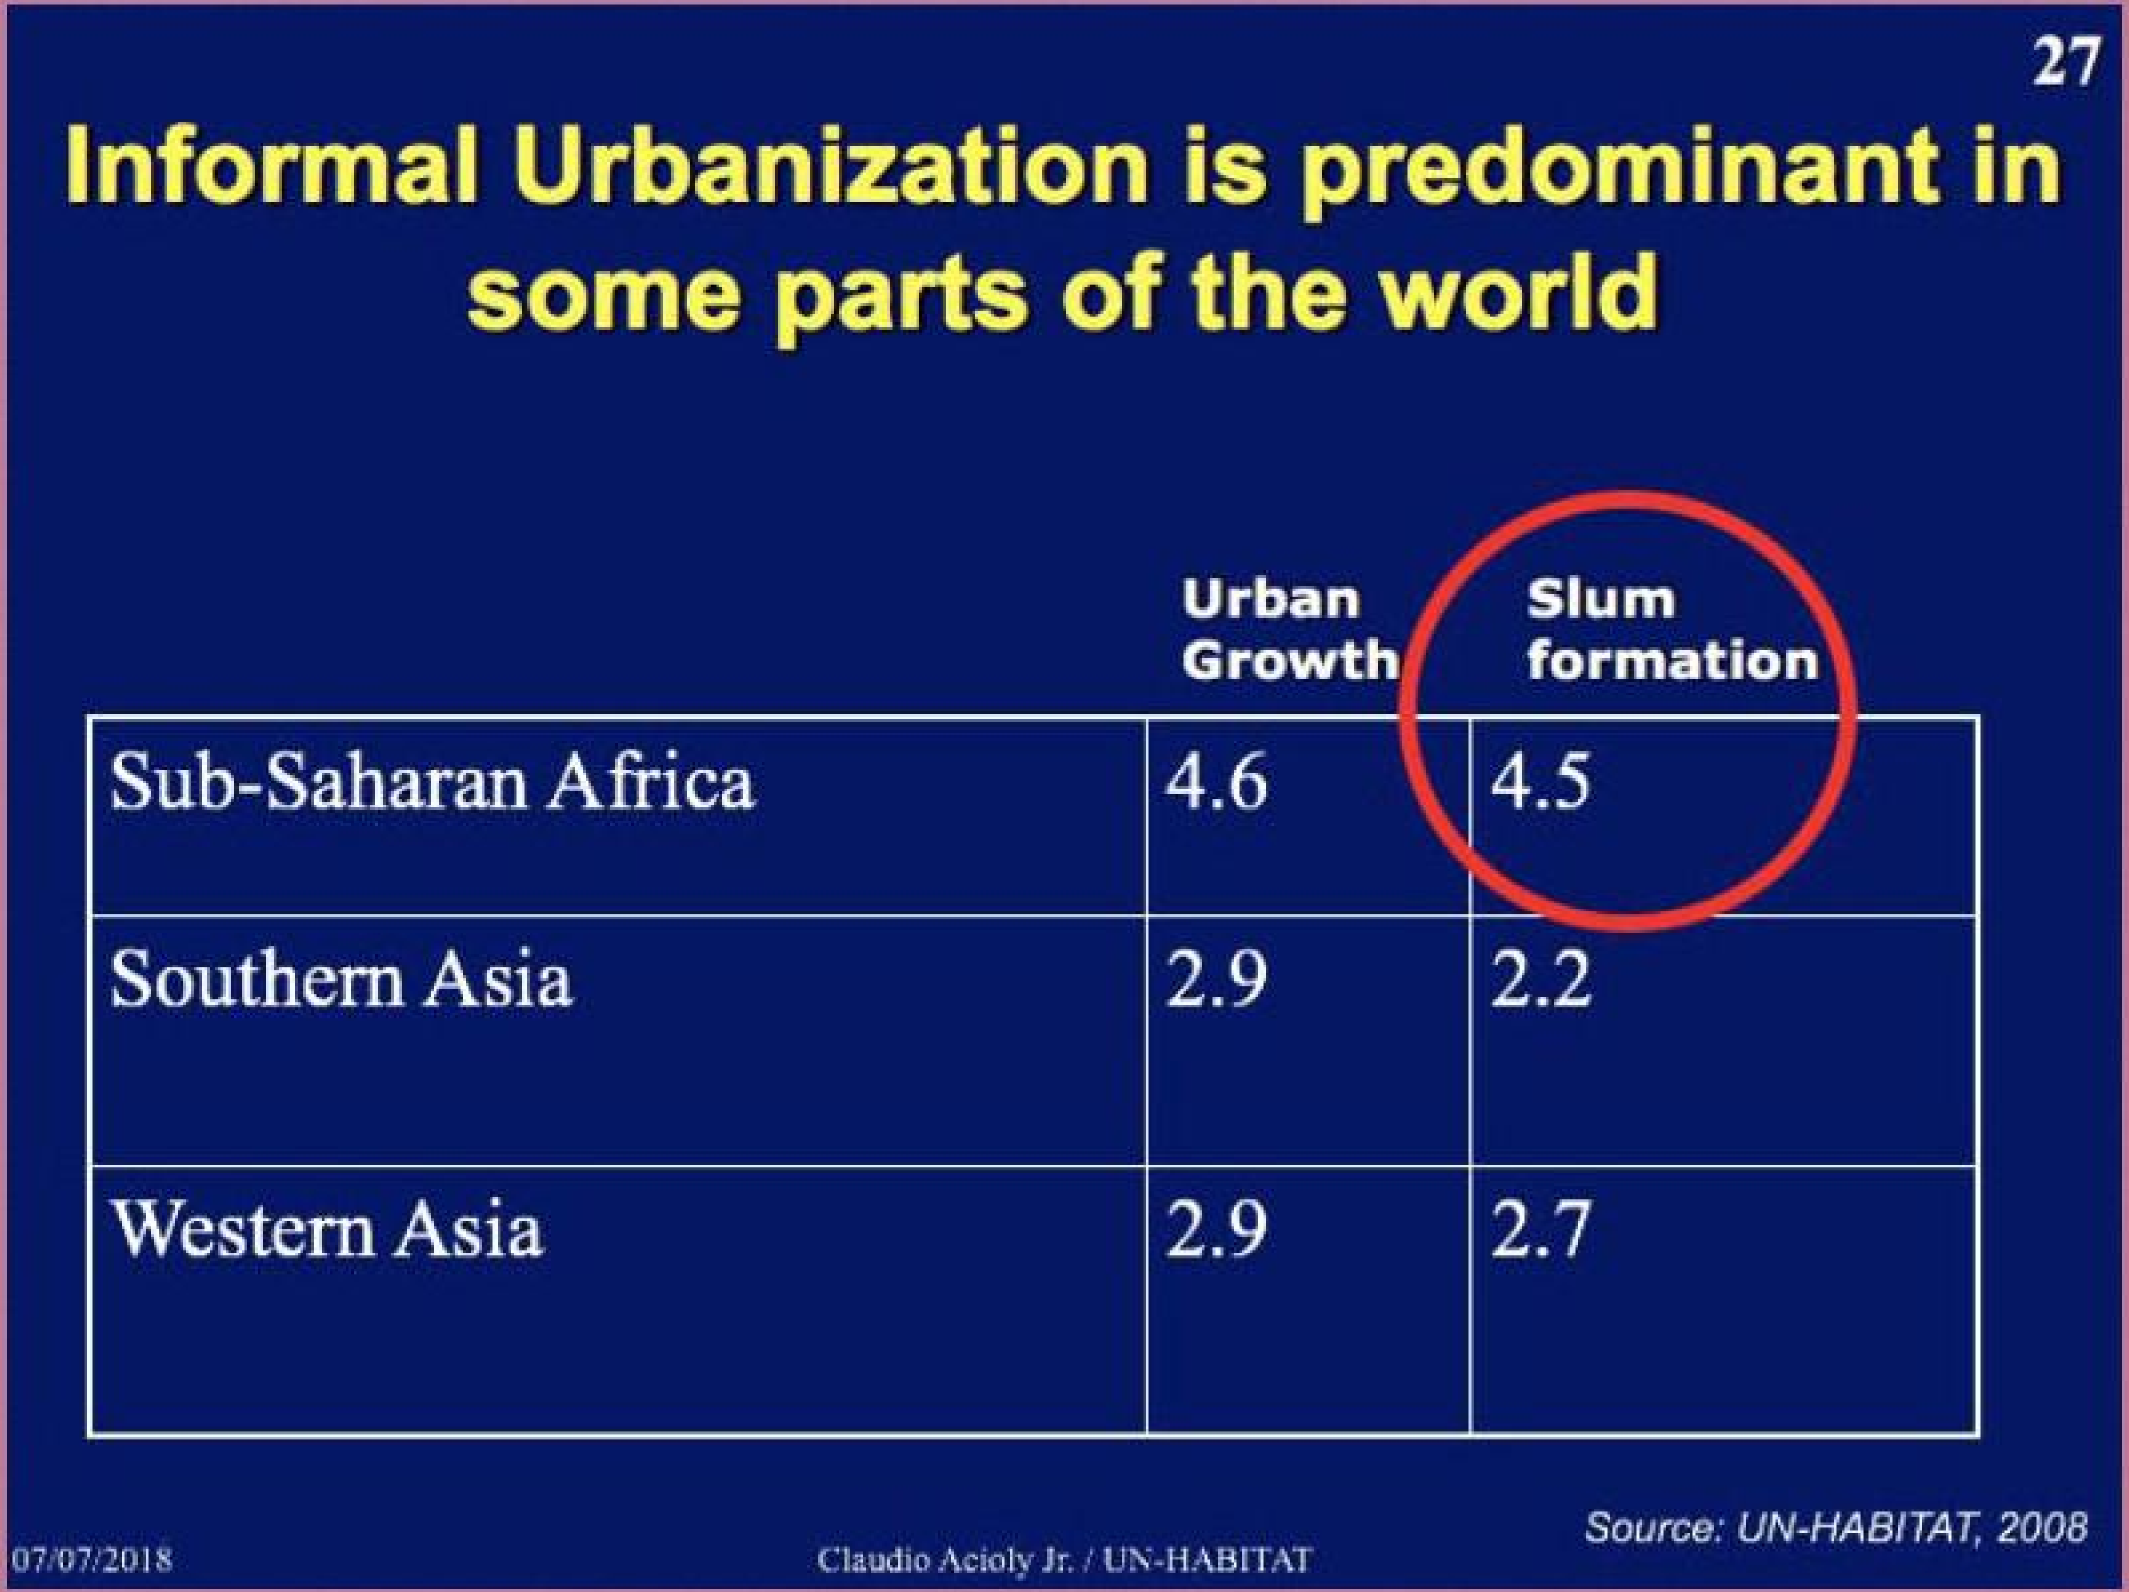
WORLD
Total Population: 7 billion
Urban: 3.6 billion (52%)
Slums: 862.5 million (24%)

AFRICA
Total Population: 1 billion
Urban: 413 million (40%)
Slums: 225.9 million (51%)

LATIN AMERICA
Total Population: 596 million
Urban: 472 million (79%)
Slums: 113.4 million (23.5%)

ASIA
Total Population: 4.2 billion
Urban: 1.9 billion (45%)
Slums: 522.7 million (30%)

1 out of 4 people living in urban areas lives in slums.

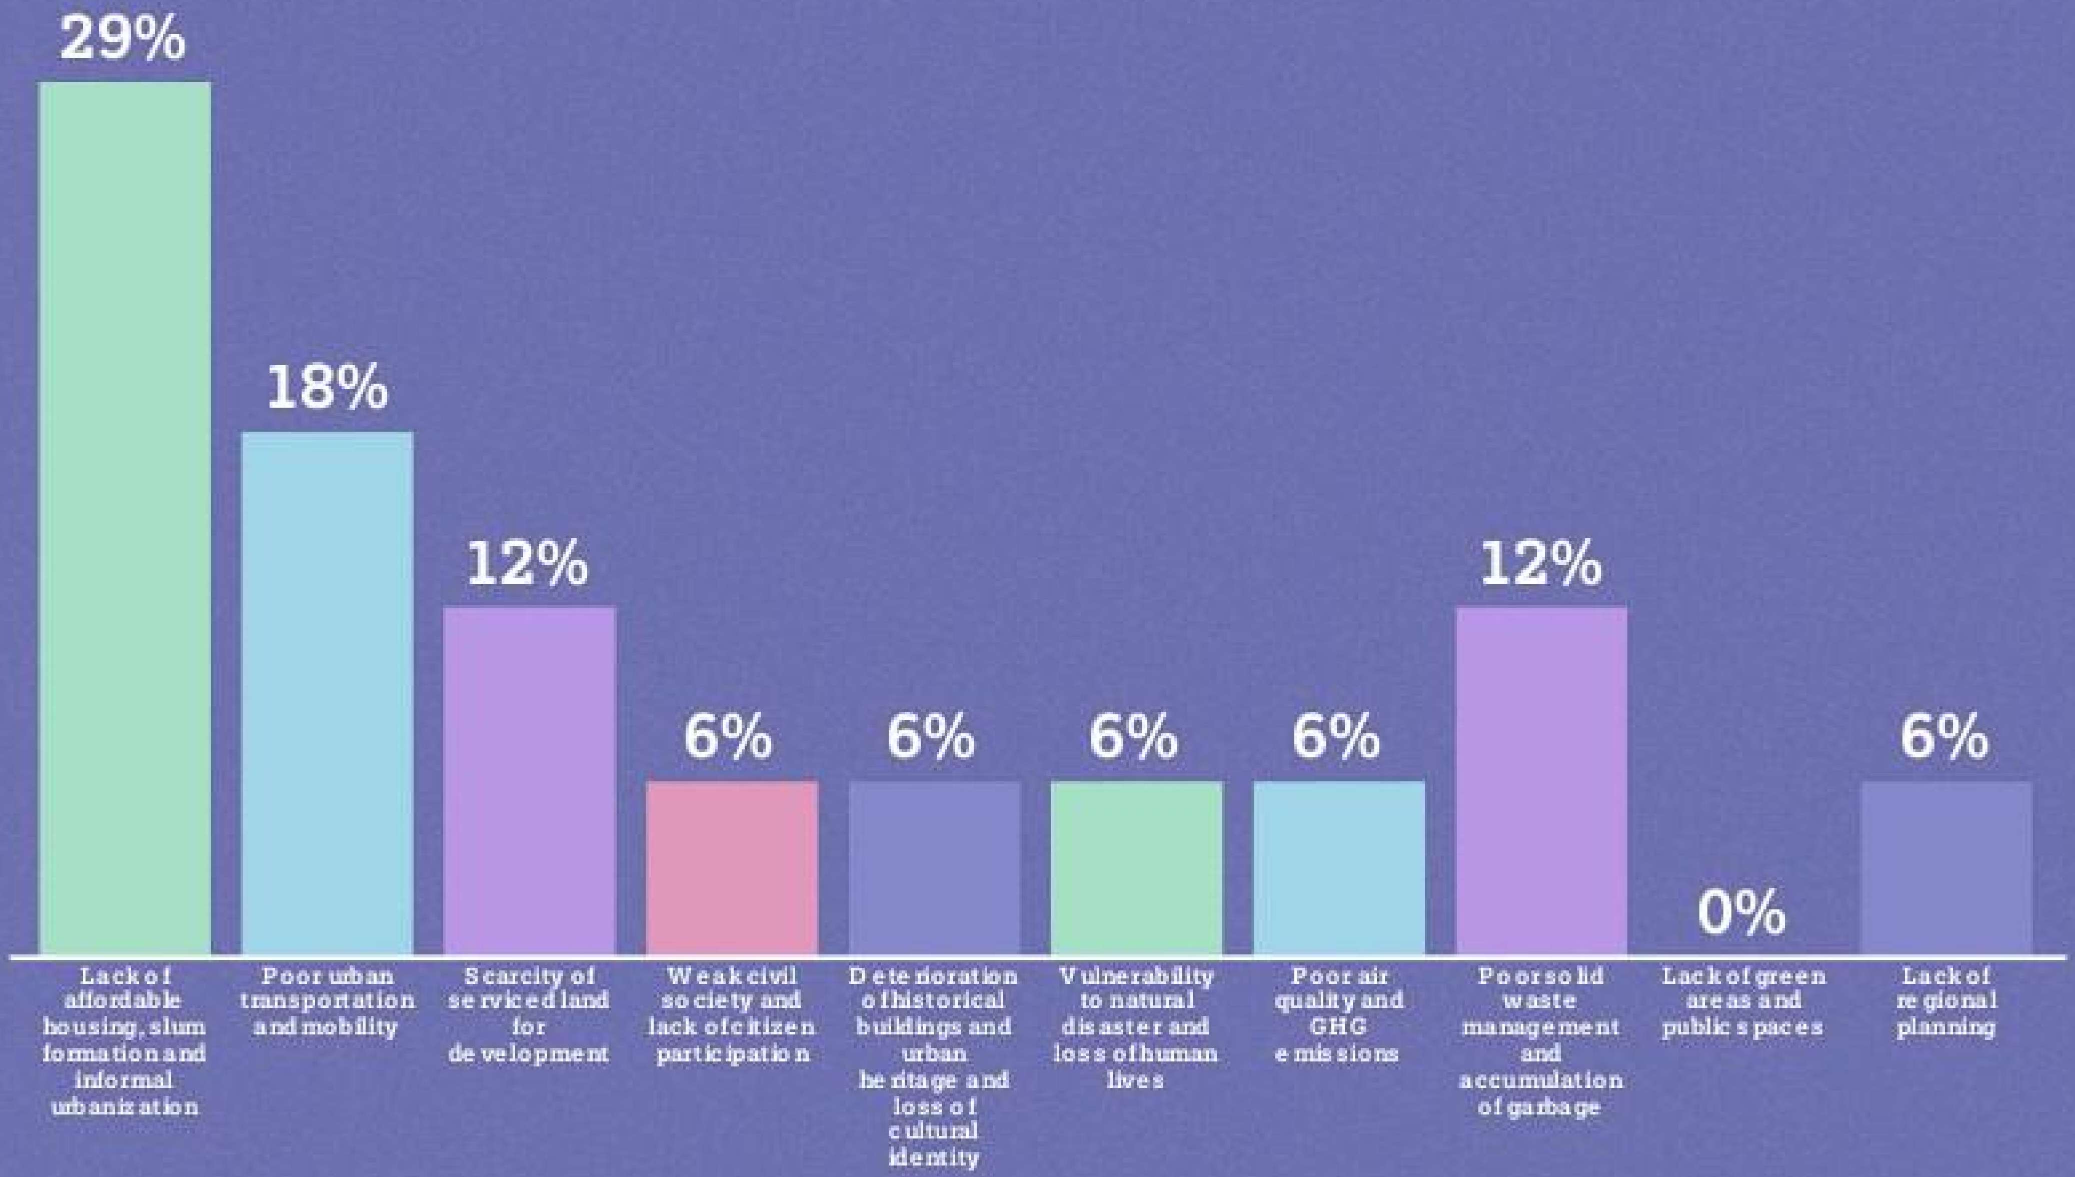


Informal Urbanization is predominant in some parts of the world

	Urban Growth	**Slum formation**
Sub-Saharan Africa	4.6	4.5
Southern Asia	2.9	2.2
Western Asia	2.9	2.7

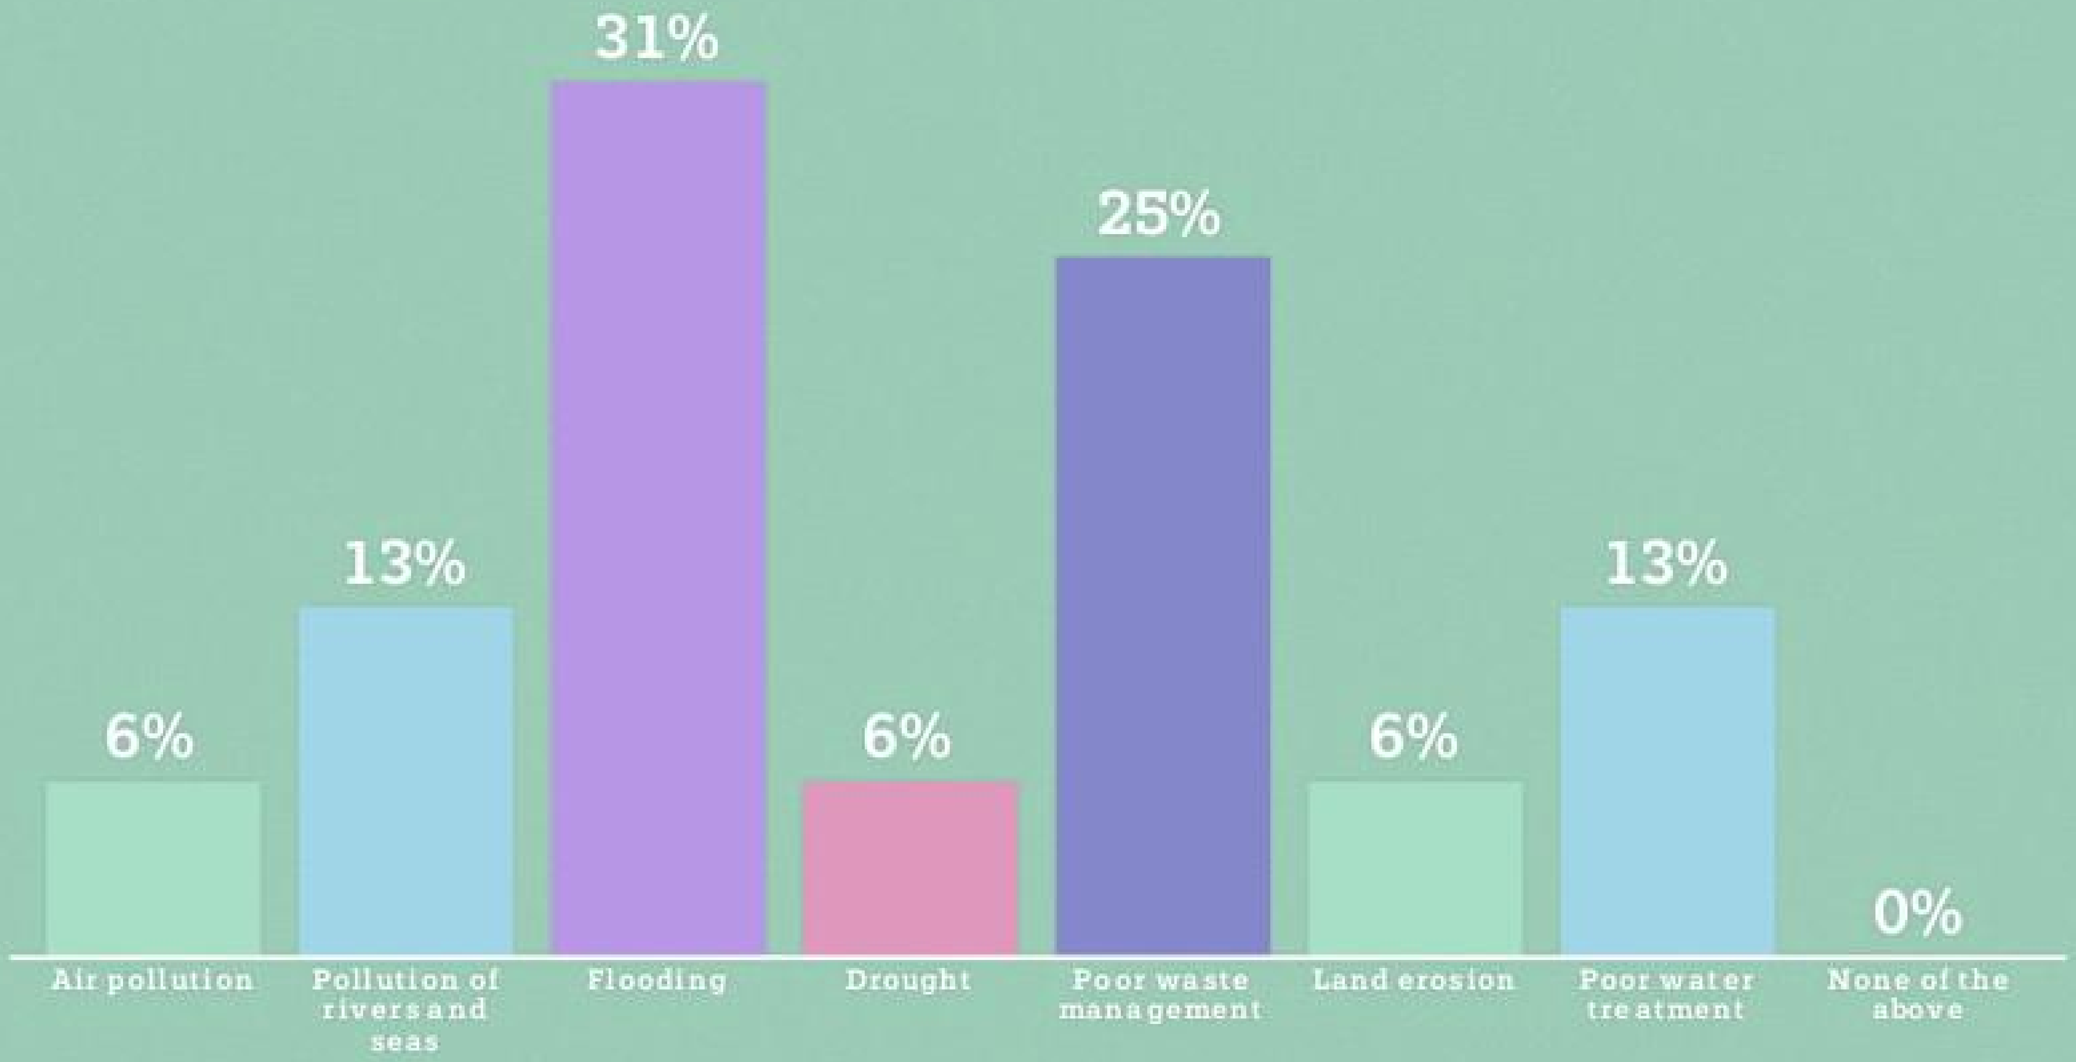
Source: UN-HABITAT, 2008

On this list, what is the most critical problem in my city: (maximum 2)



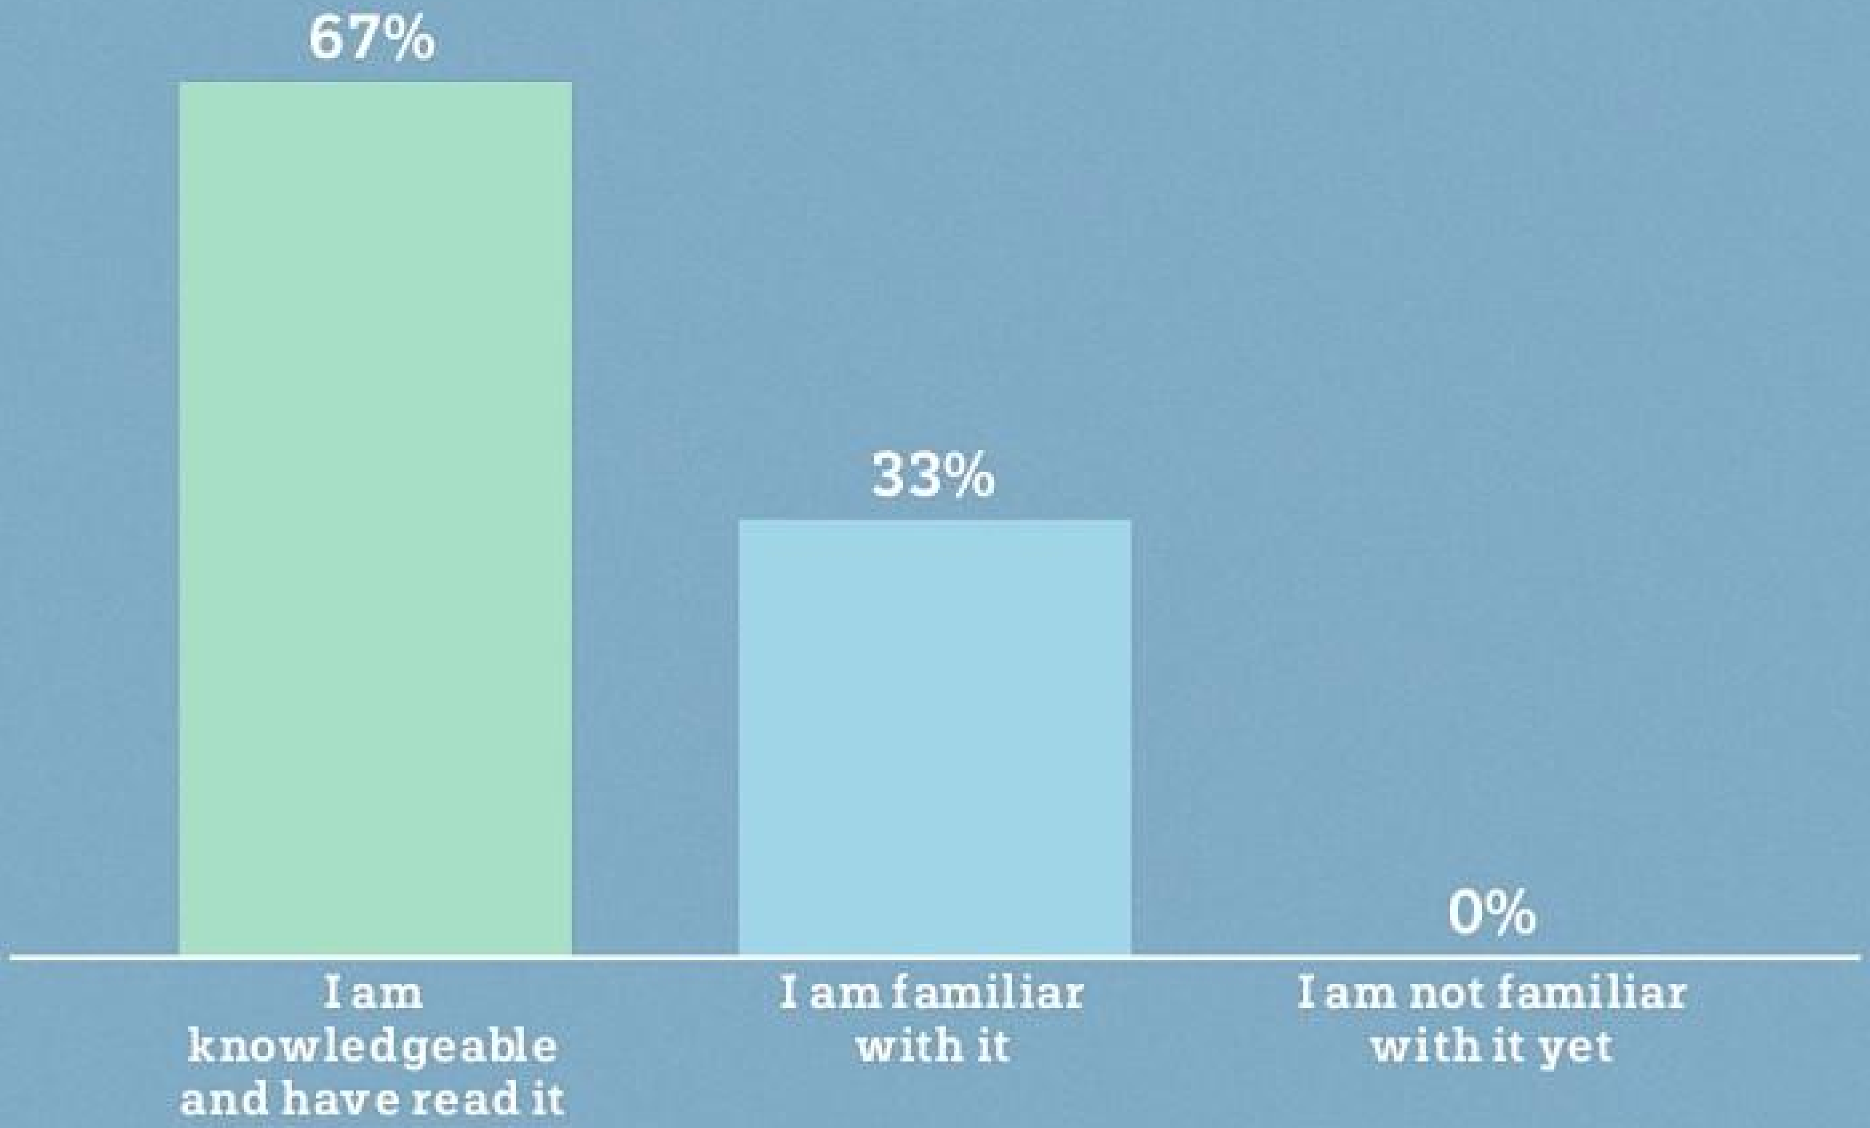
9

Which is the key environmental issue that you think needs to be addressed inmediately?



Choose what applies to you in relation to the Agenda 2030 and the SDG's:

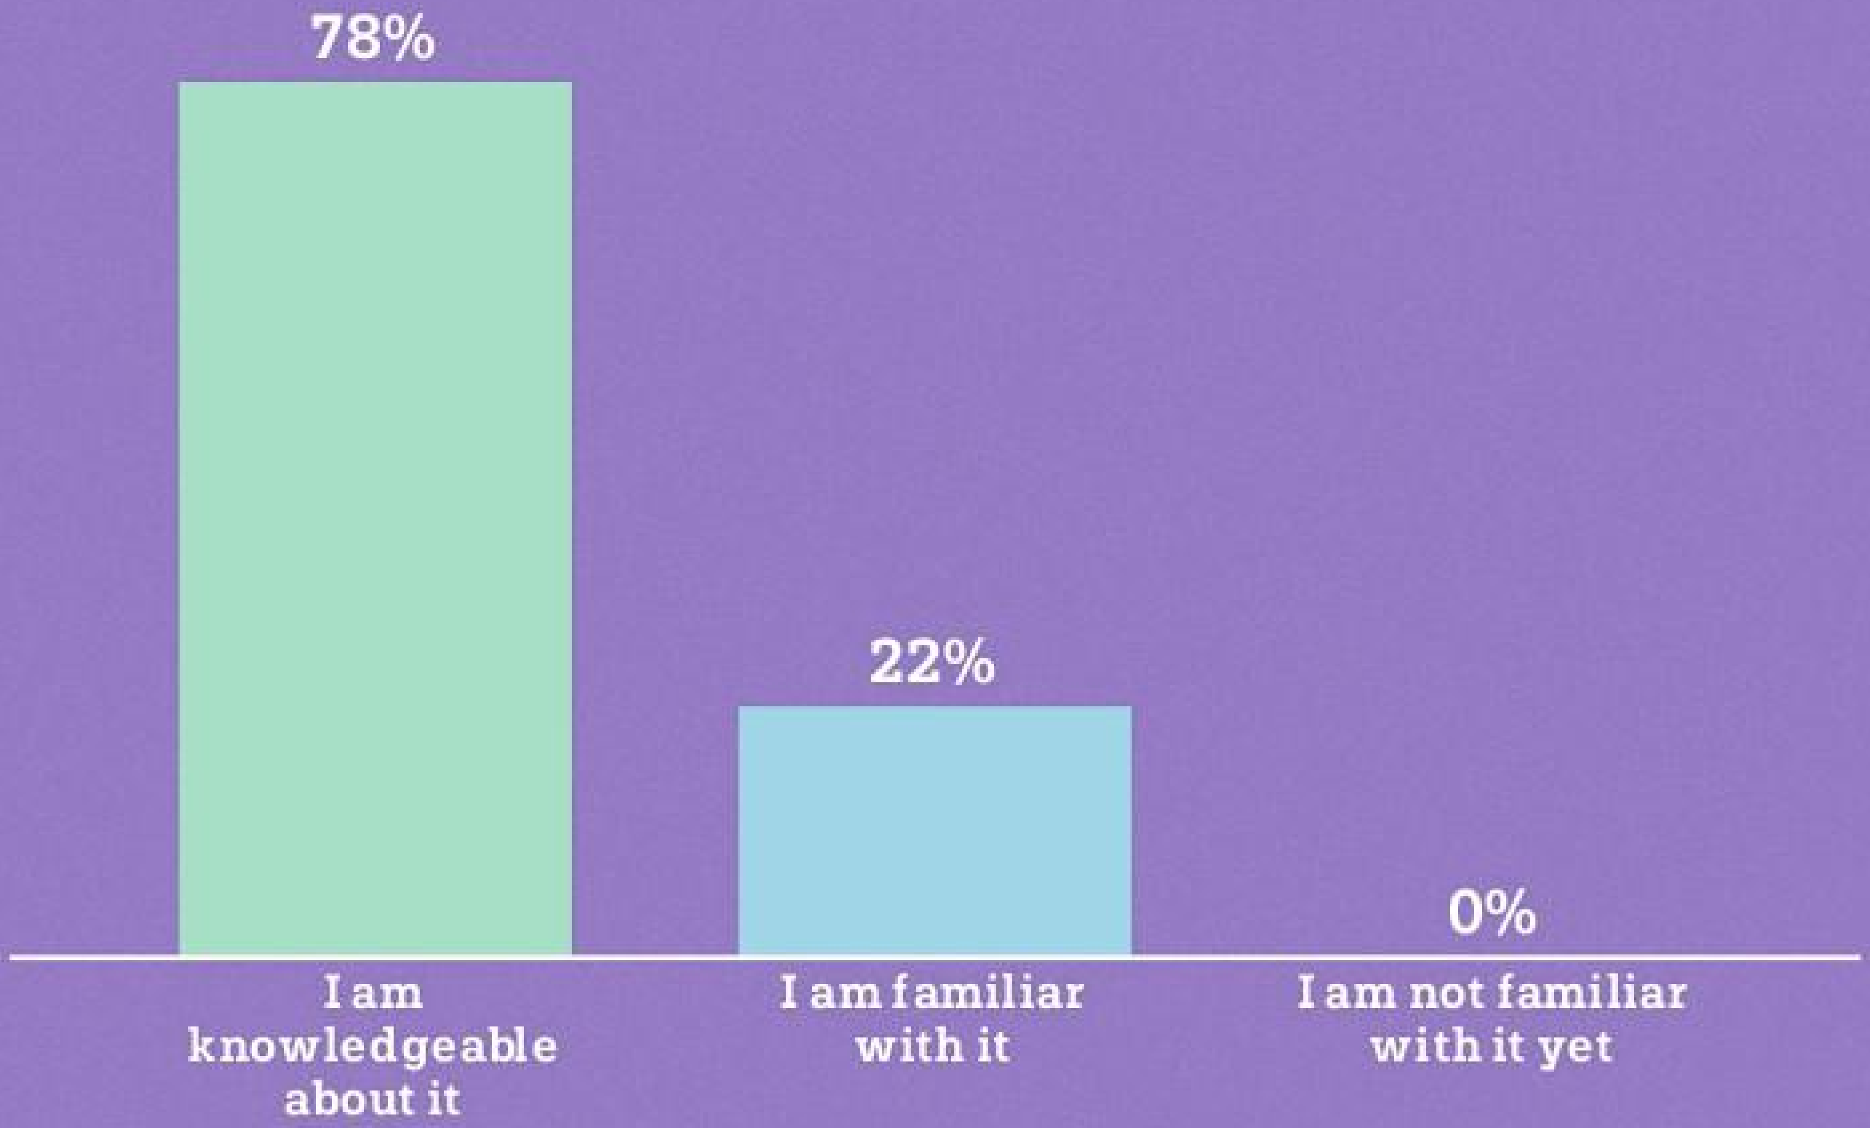
Mentimeter



9

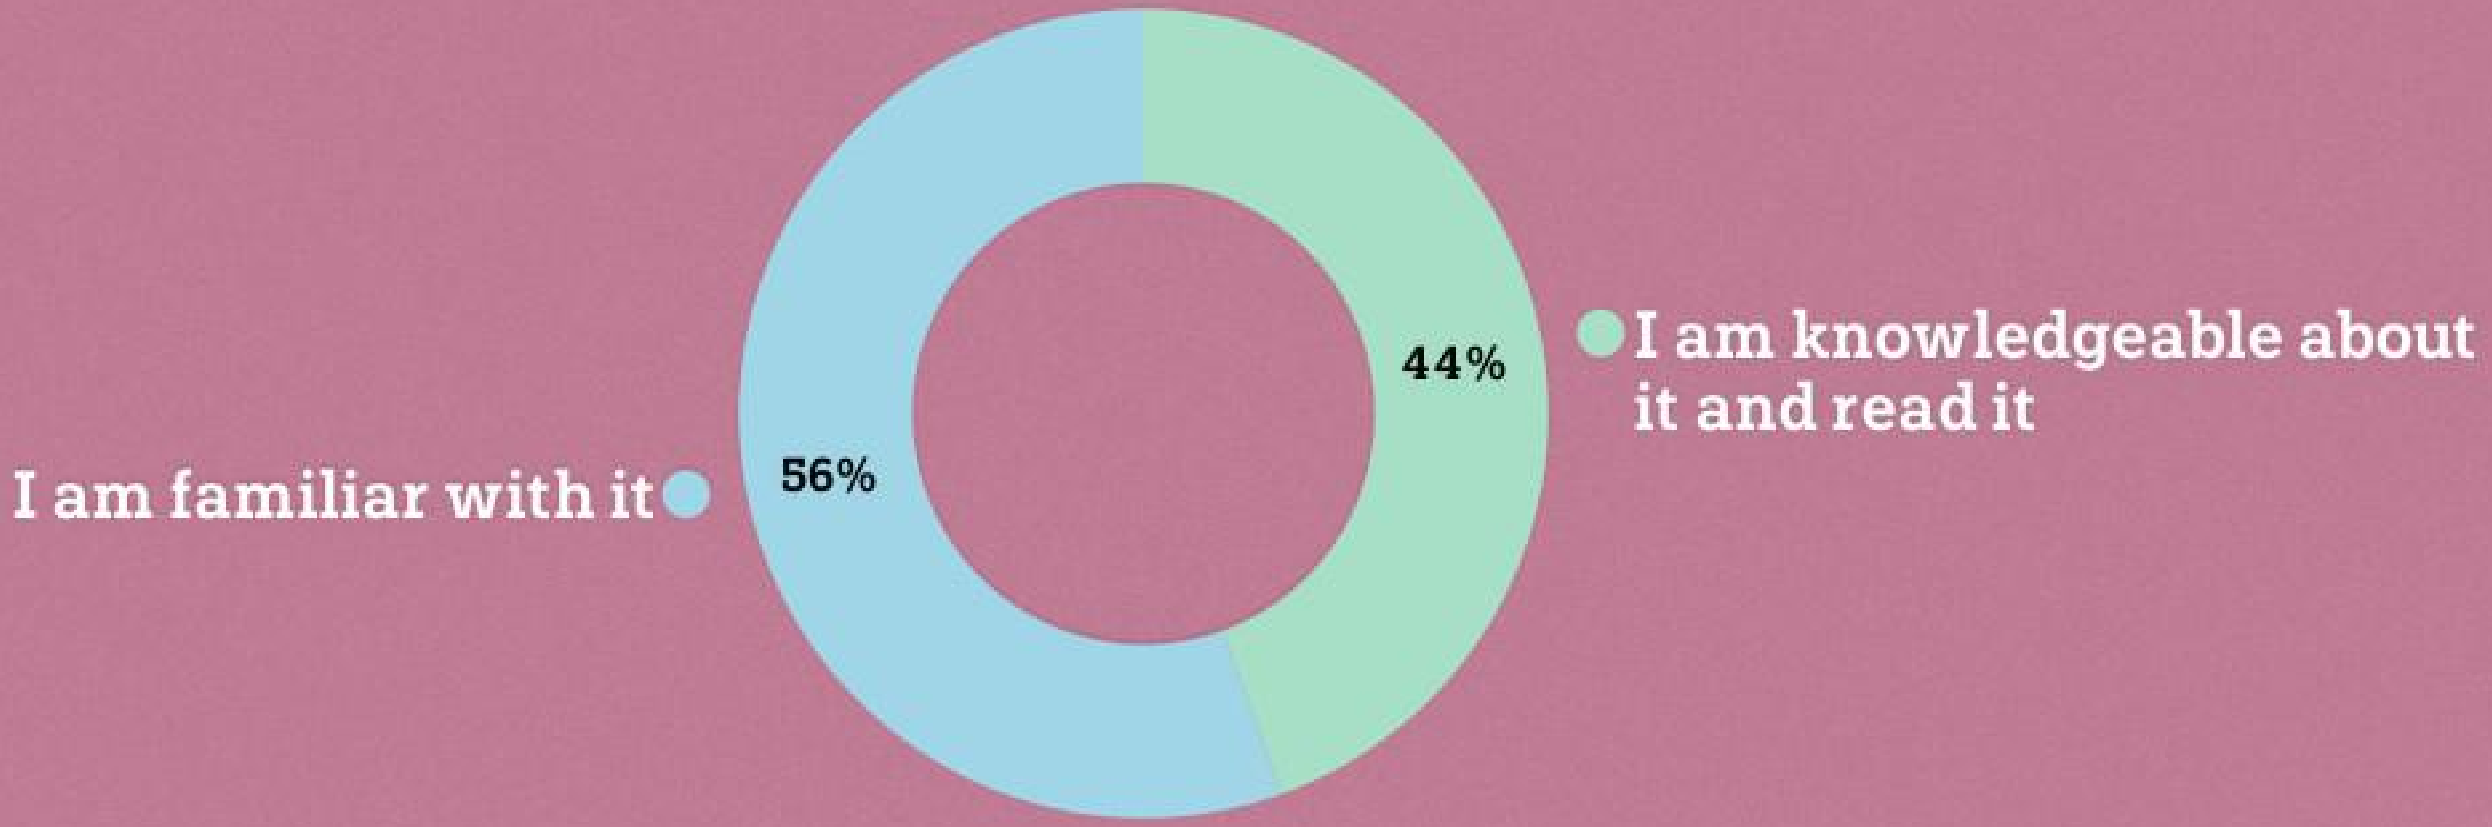
Choose what applies to you in relation to the Sustainable Development Goal 11 (SDG 11):

Mentimeter



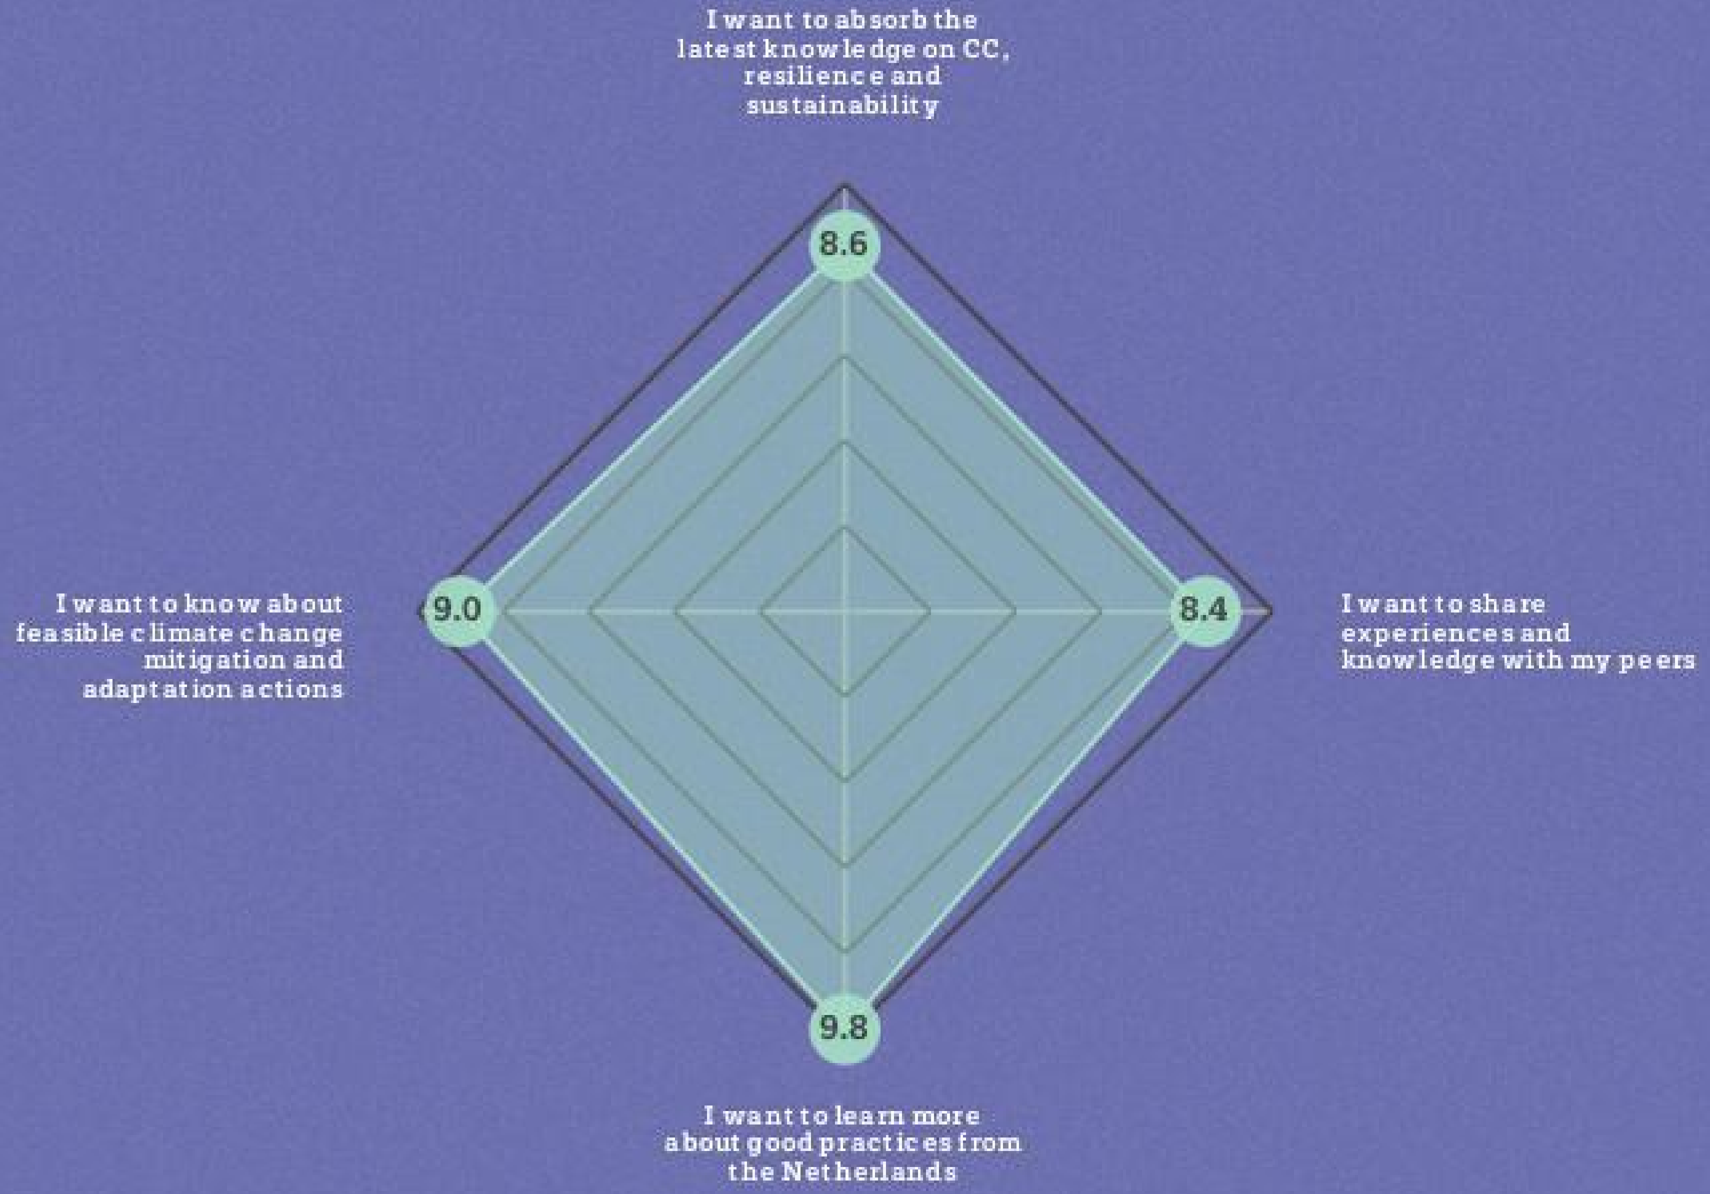
9

Select what applies to you in relation to the New Urban Agenda (NUA):



How much do you agree with the following expectations for the Shelter Academy:

Mentimeter



9

What other expectations do you have for this training?

Mentimeter

I'm good with the preparation

To learn more about climate change adaptation and mitigation as part of my job as an urban planner; and to hear best practices that I can replicate back home

When I go back to my country, have a lot of knowledge and experience with CC and my contributions to my people.

Learn more about how netherlands is coping with growth

To learn about government support for plan preparation and implementation

Learn More about possibilities to engage with other Shelter programmers activities

Learning from best practices in HollandScoping for opportunities for partnerhip with Acardis and UN habitat

practical field visit

Taking good practices with me to help me vigorously advocate for mainstreaming of climate mitigation and adaptation

10

What other expectations do you have for this training?

Lessons learned on cc and urban development as well as how to strike a balance between the development and environmental sustainability in order to mitigate adverse environmental and social impact

Thank you
