Cities and Climate Change

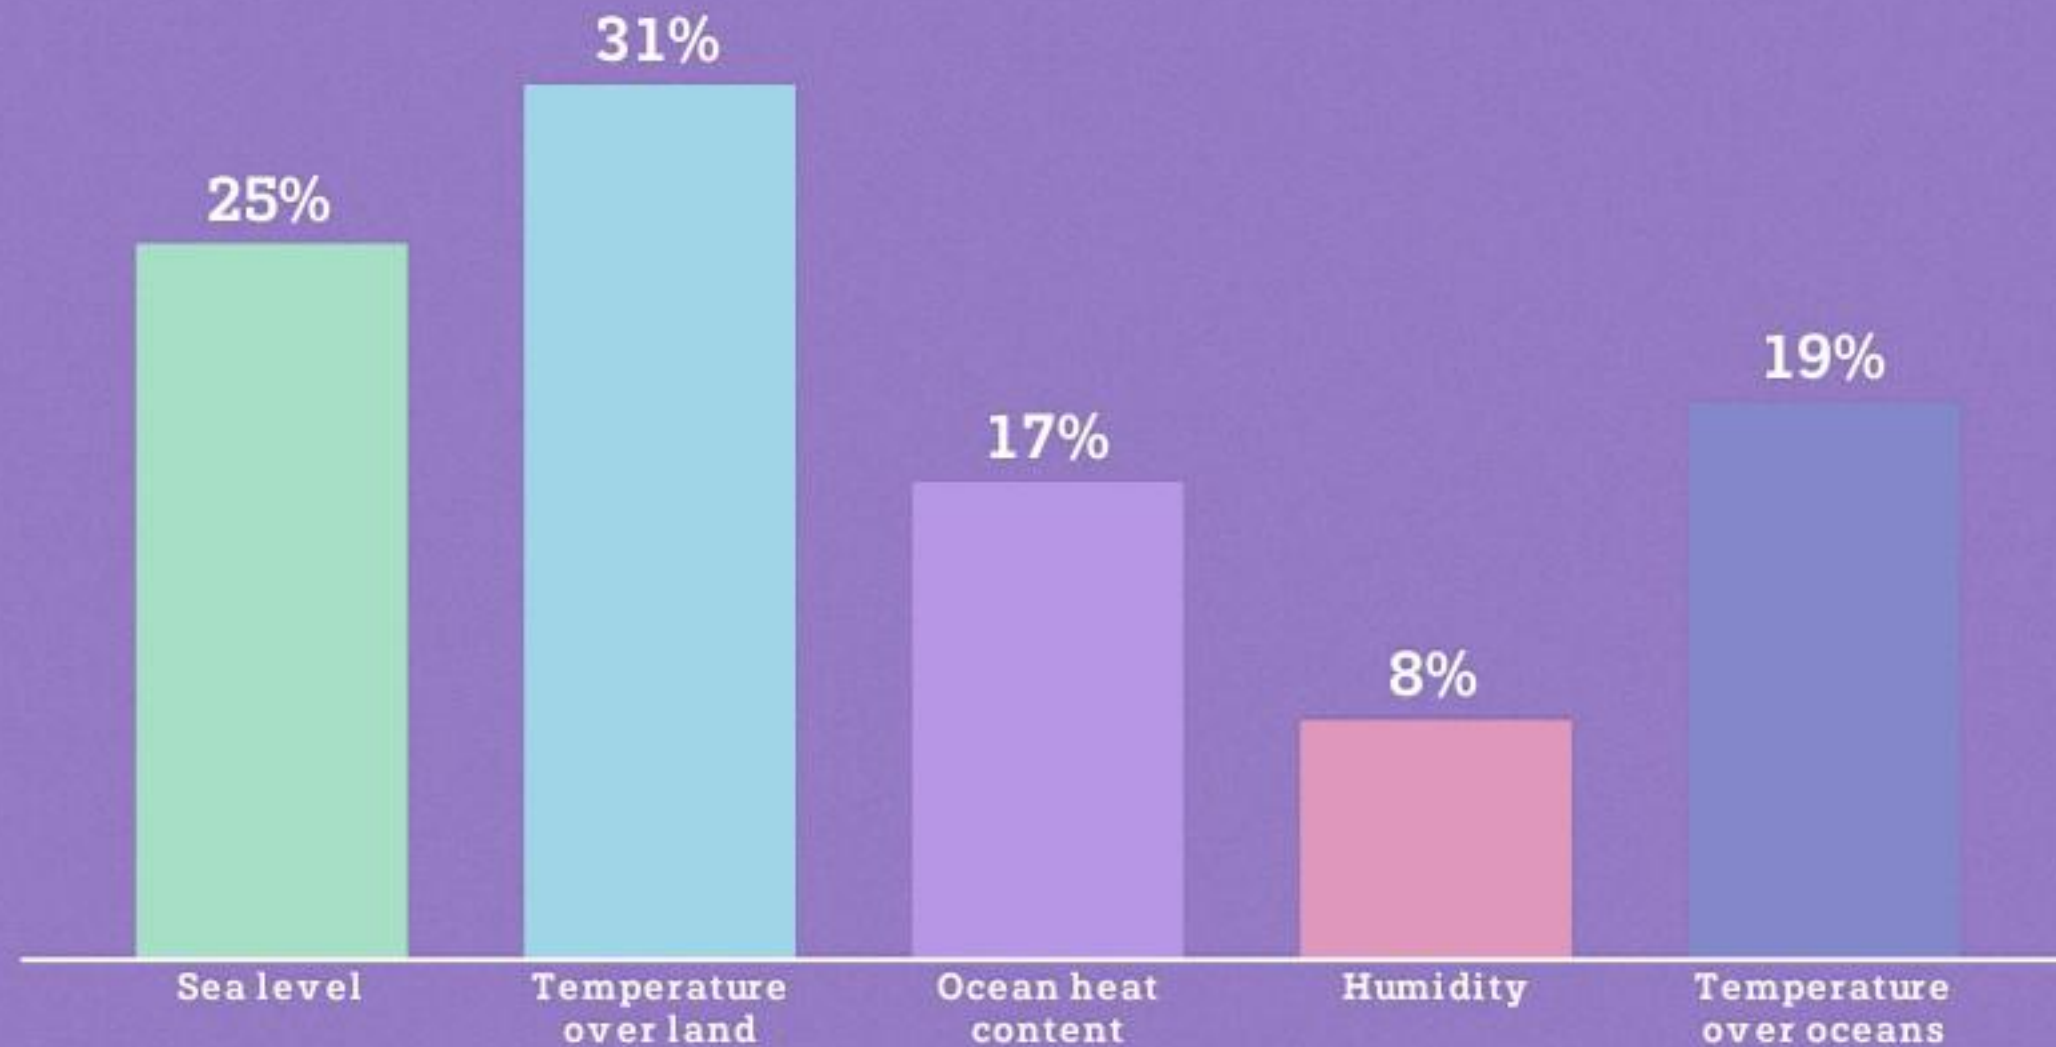

UN-Habitat - Arcadis

3 September

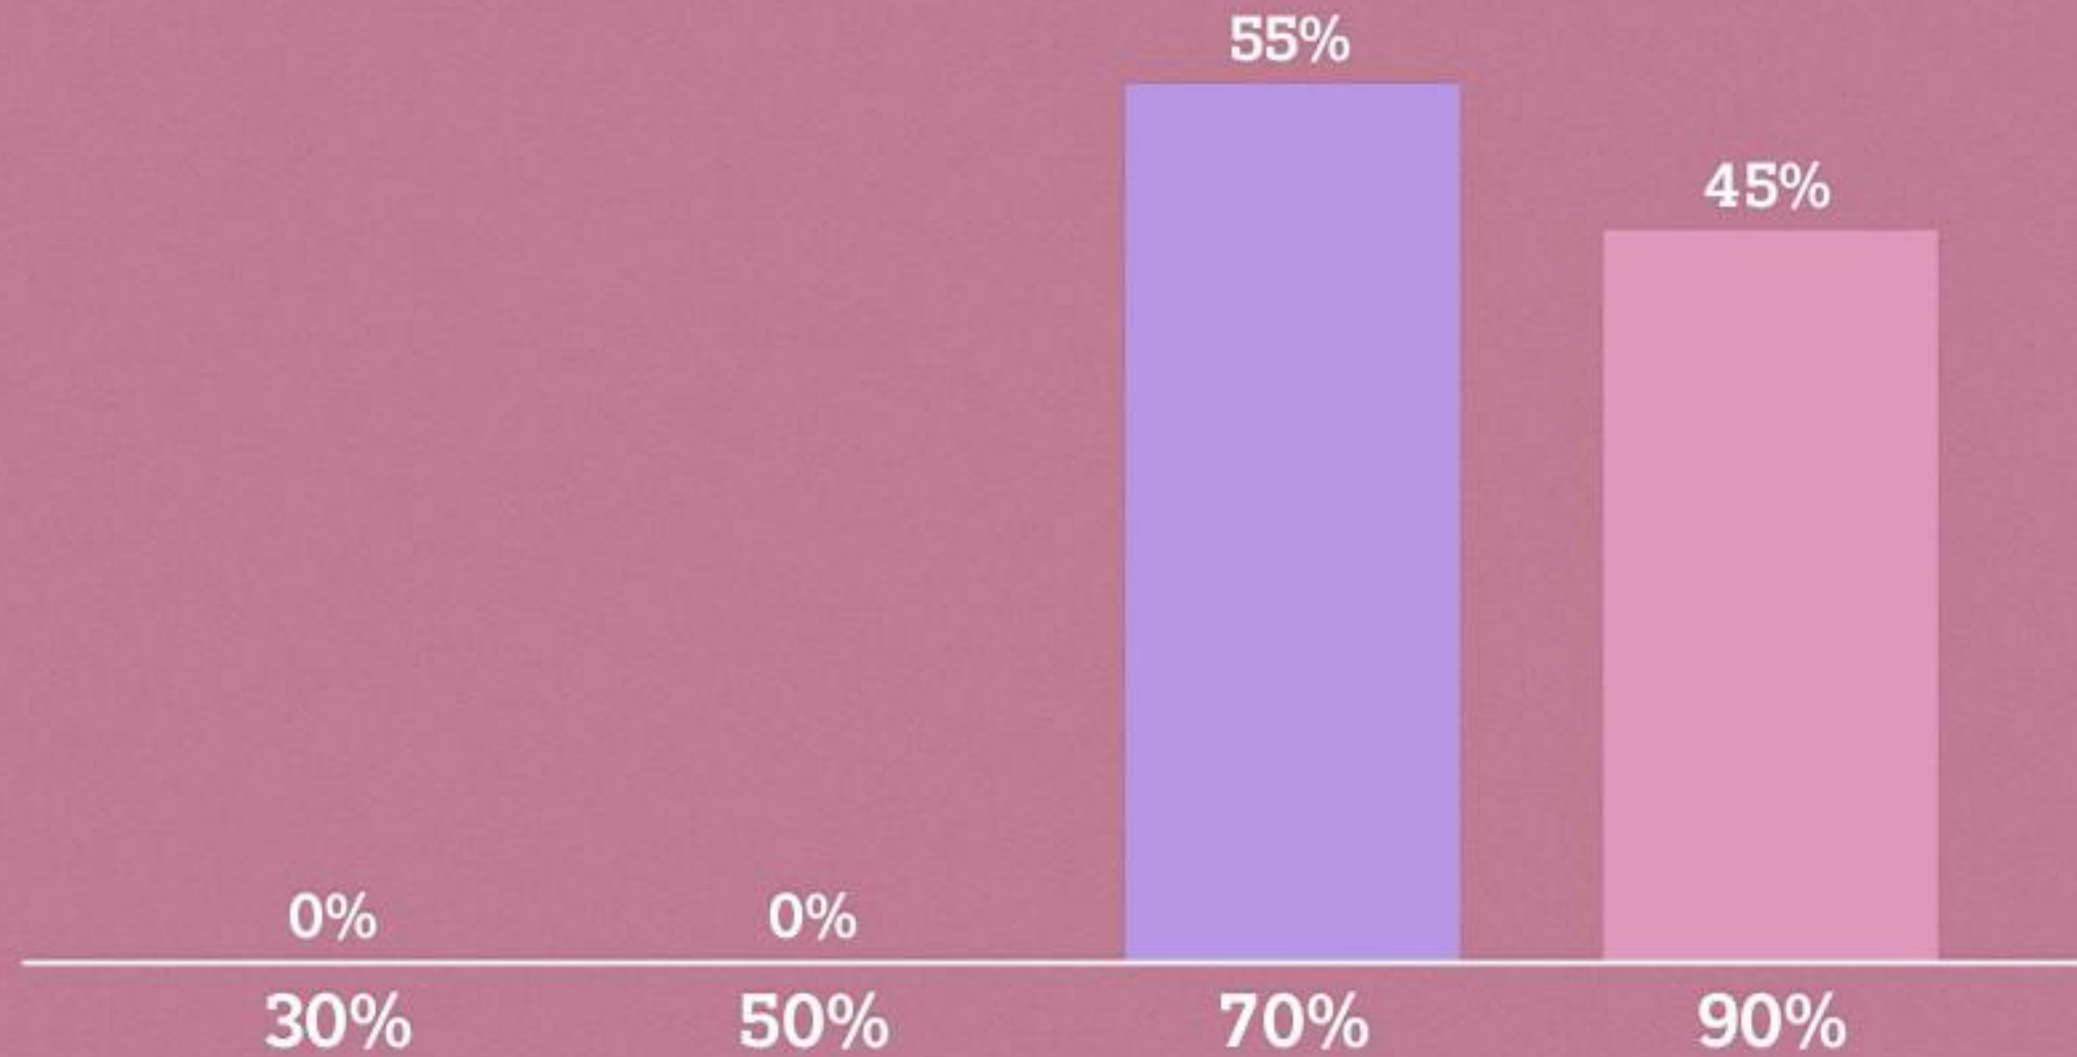

Which of the following is an example of climate?

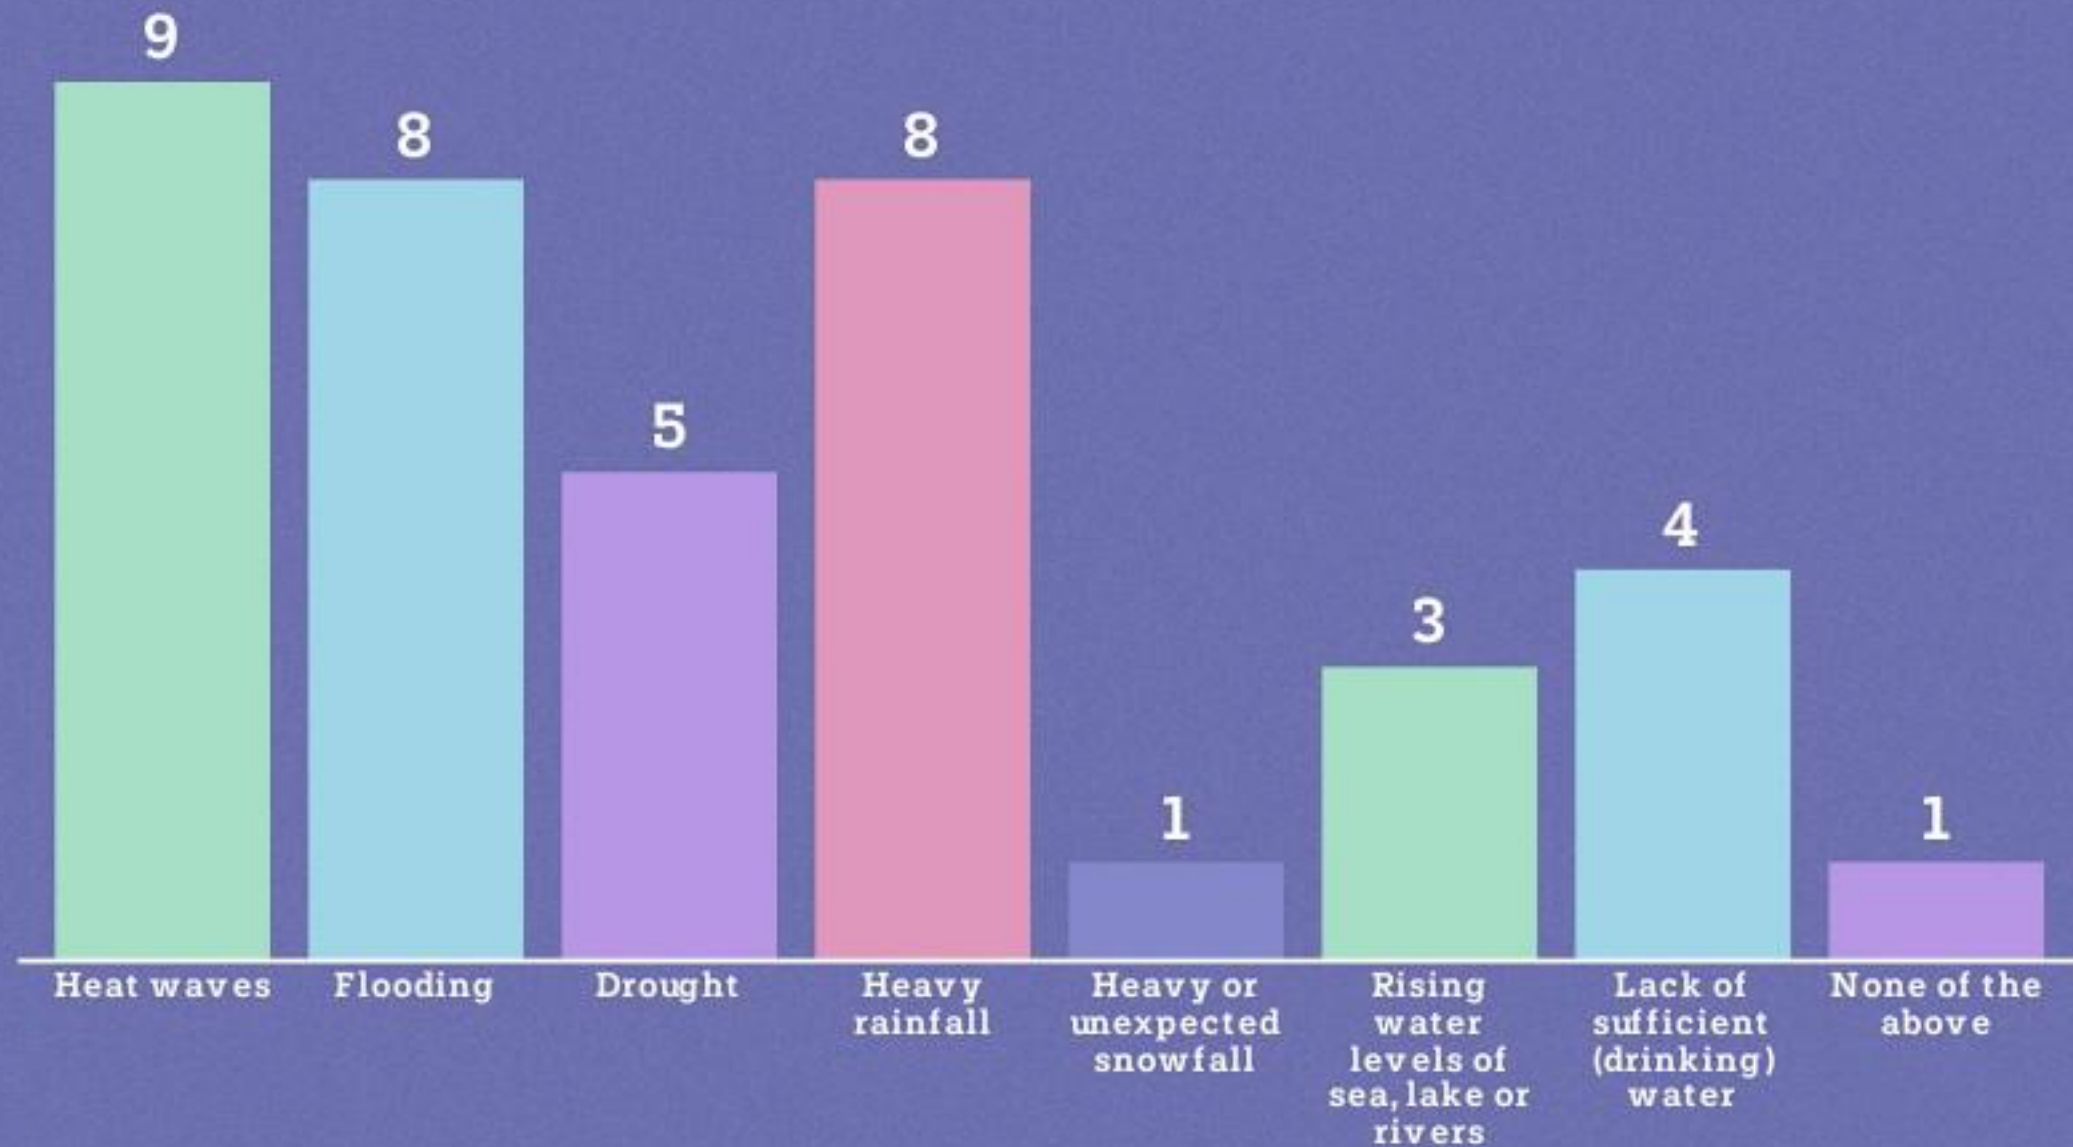

Select ALL direct indicators of climate change that would be expected to increase in a warming world:

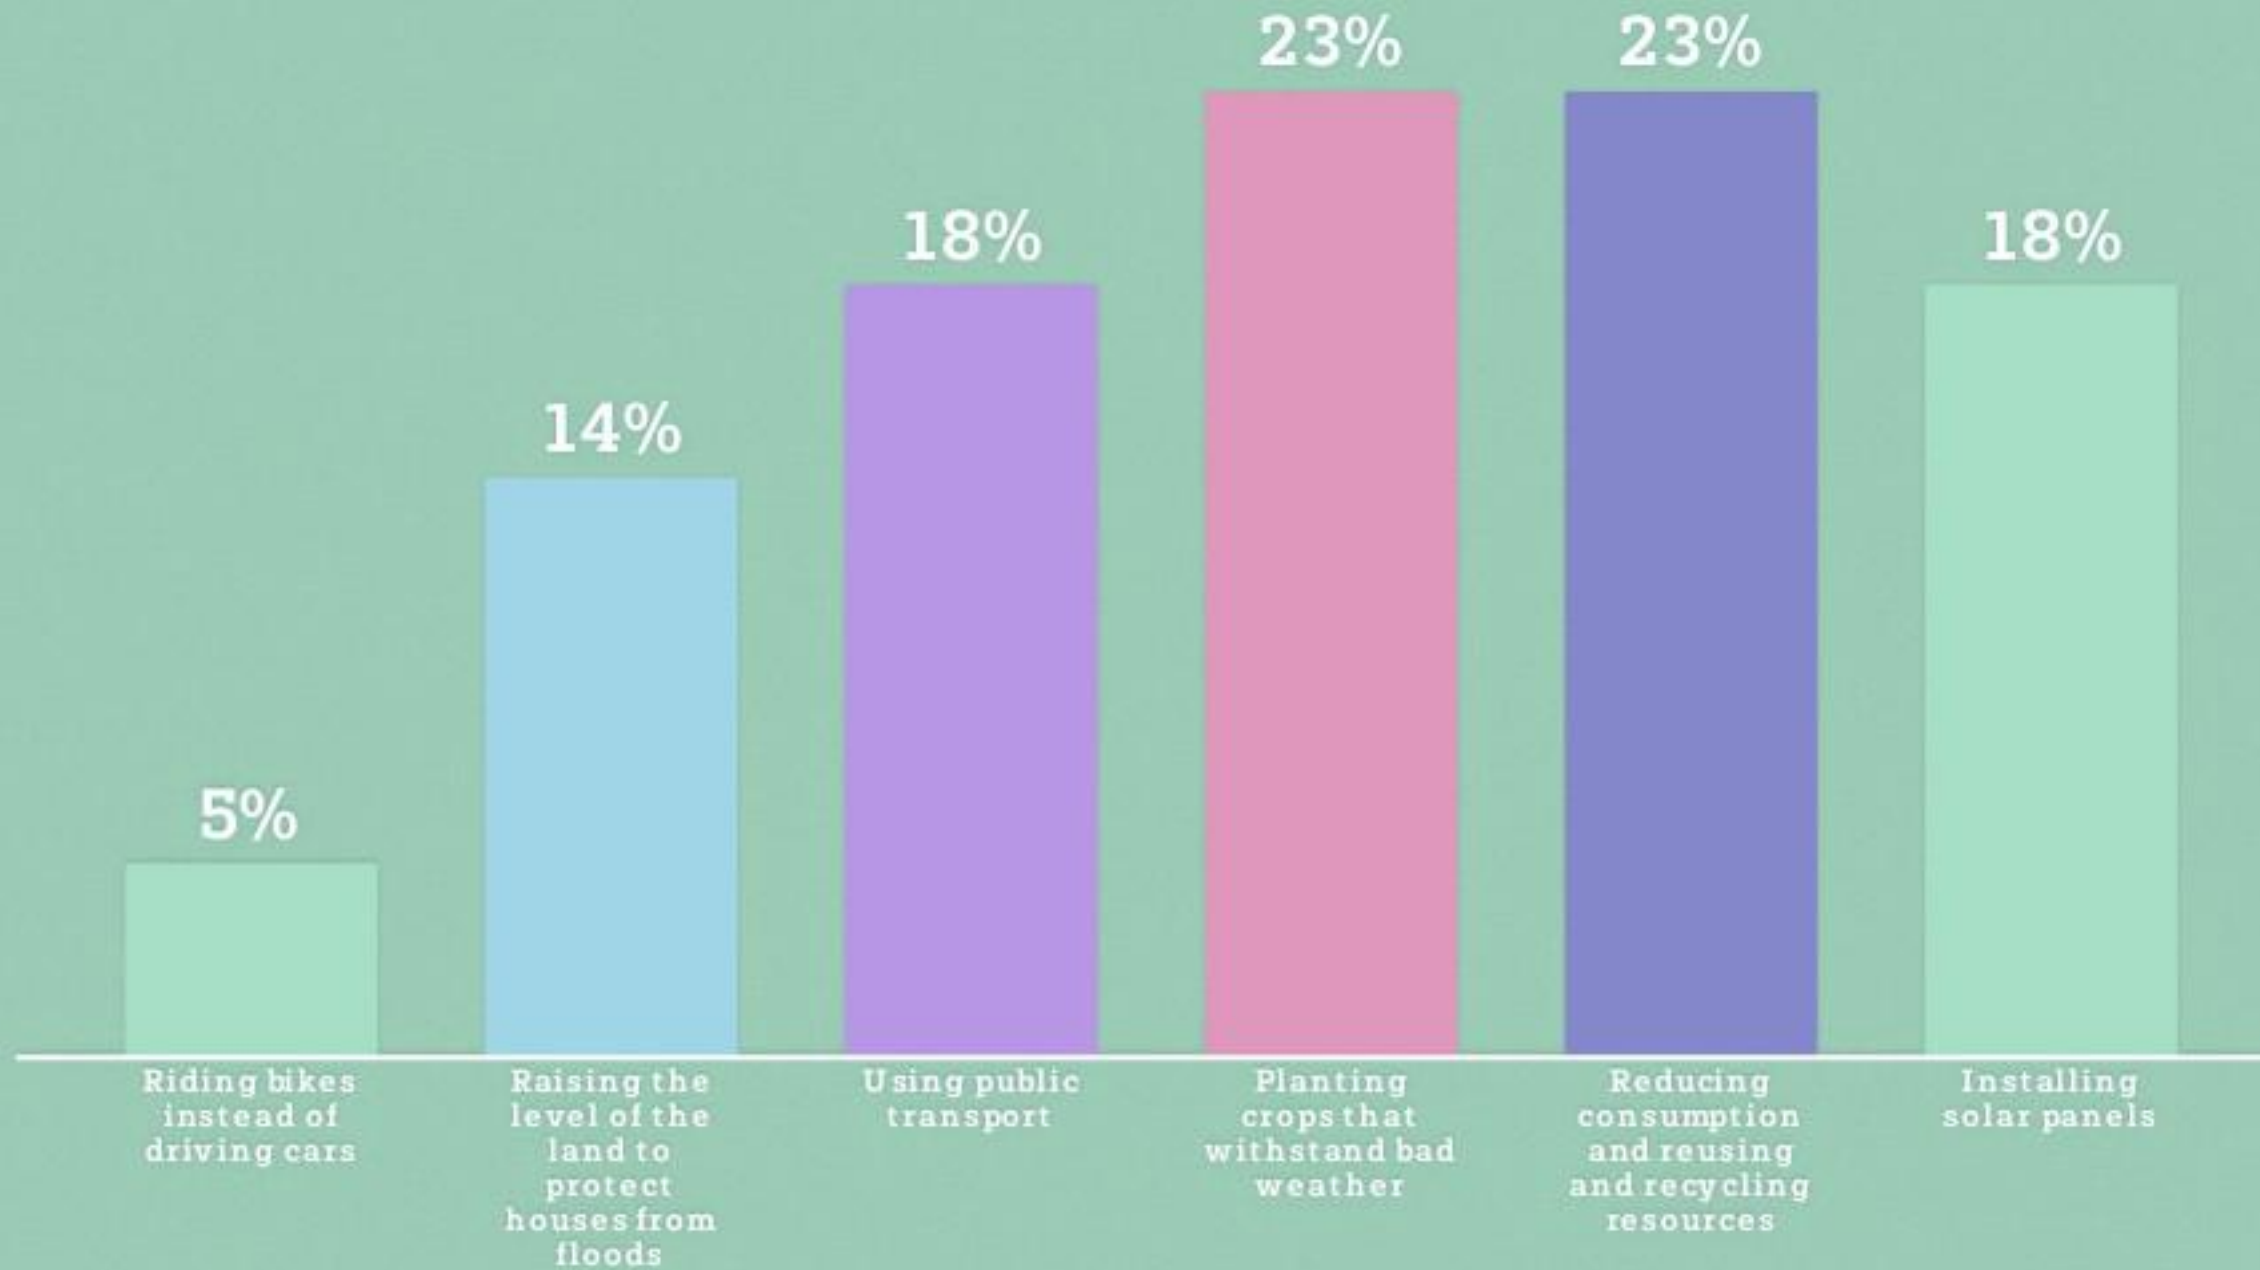

The richest half of the global population is responsible for which percentage of the world's carbon emissions?

Over the last 30 years, what out of the following has increased in intensity in your city (tick all that apply)?

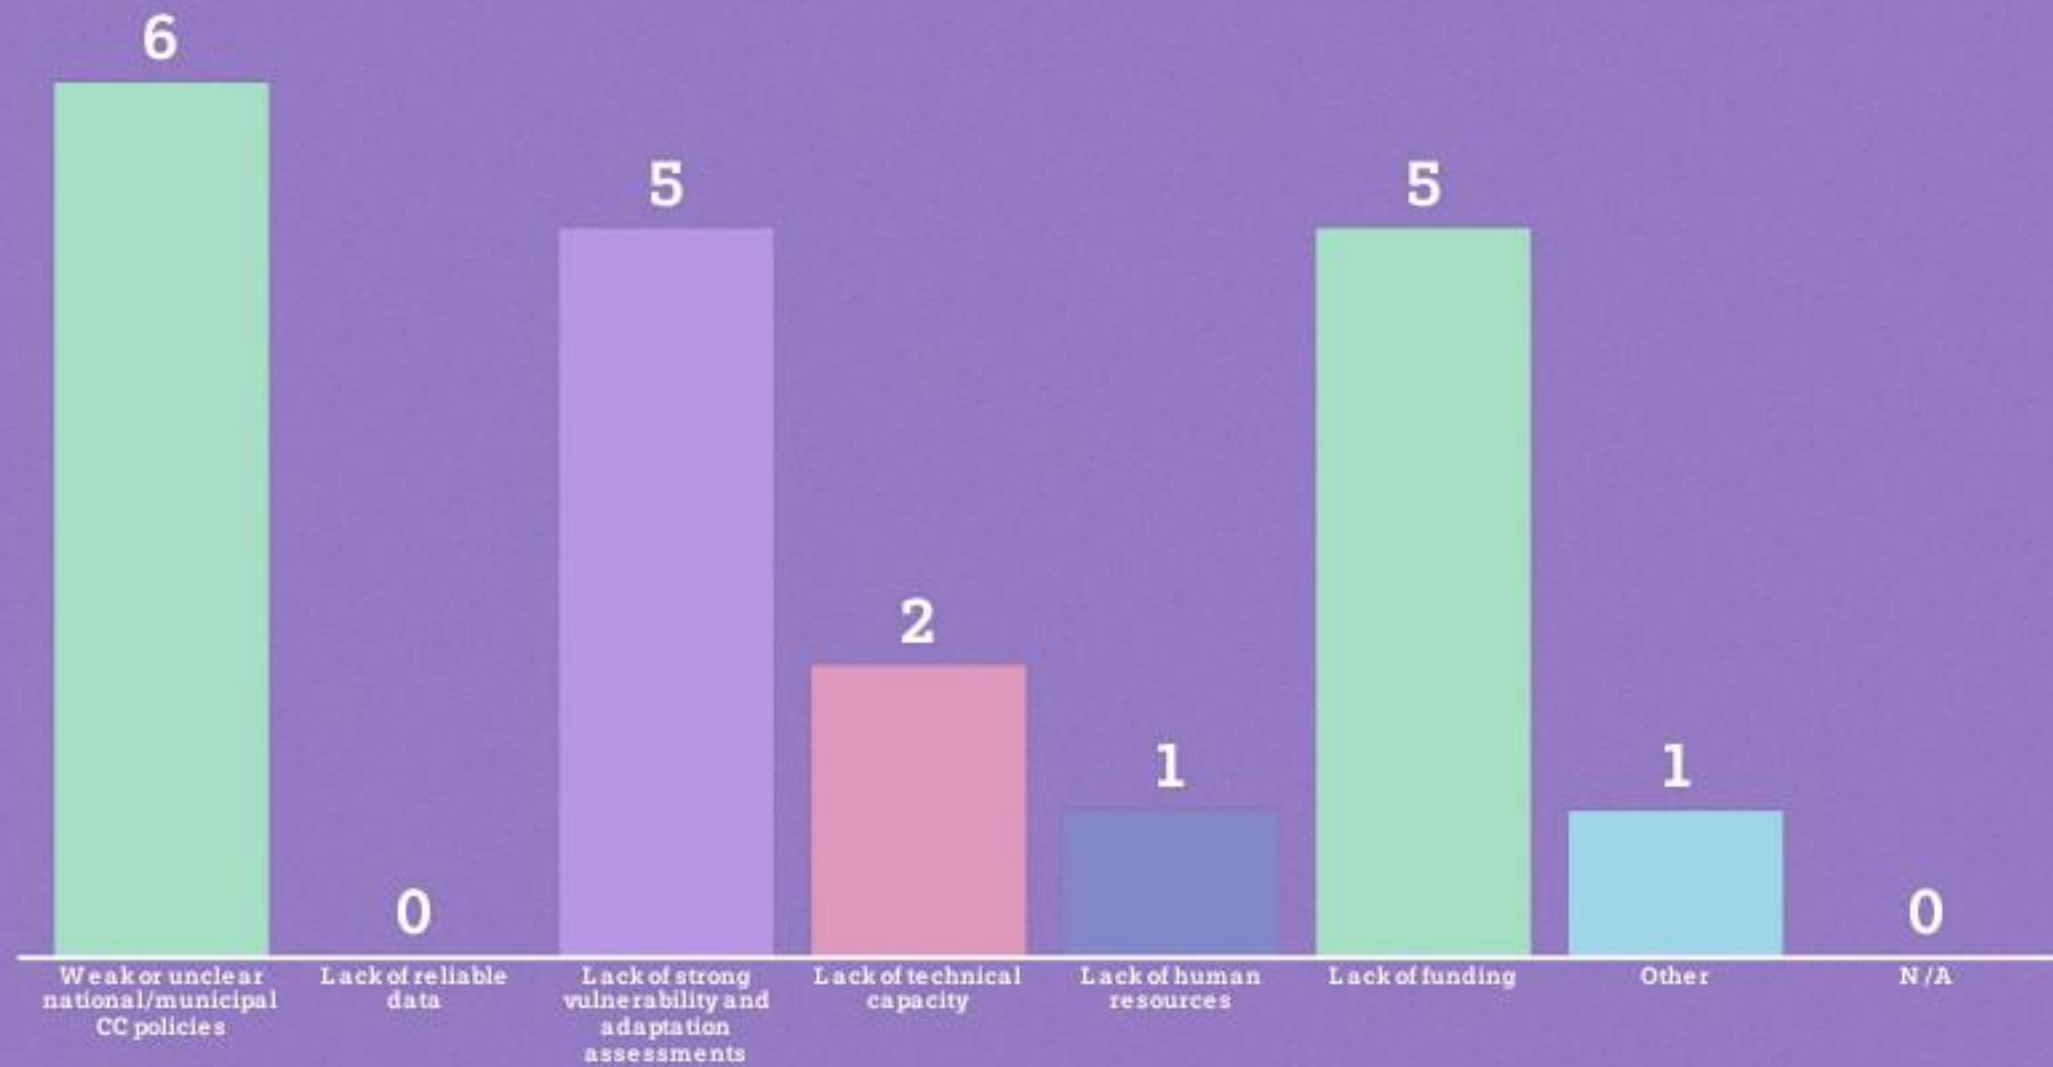

What are examples of climate adaptation?

Has your city implemented any climate change adaptation or mitigation projects in the last 5 years?

If you answered yes, what were the top 2 key challenges of those projects/programme(s)?

Has your city government initiated any of the below within the last 5 years (select all that applies)??

My city's current climate change measures represent ___% of our municipal budget

don't know

i dont know

minimal

no
