Case Study Feedback
2 September 2019
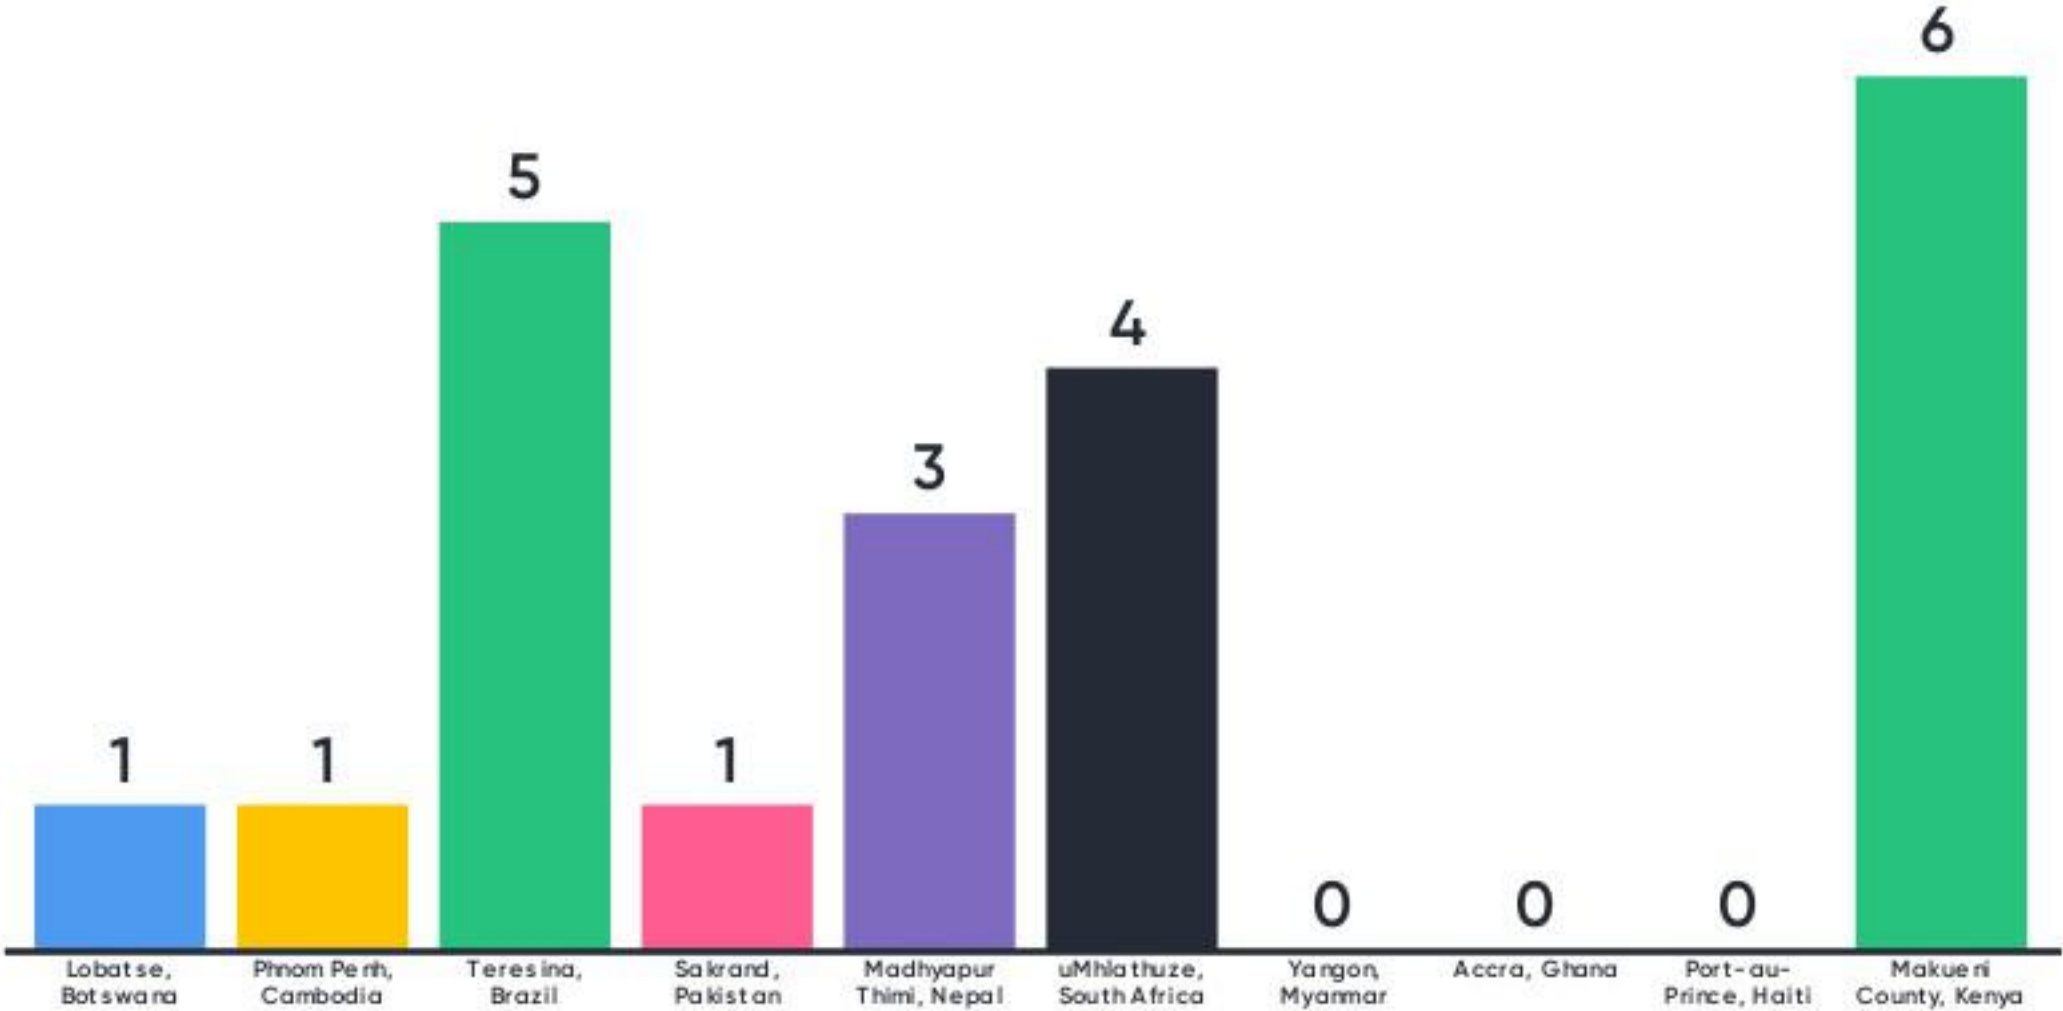

Which case study did you find the most challenging?

Mentimeter

Category	Value
Lobatse, Botswana	2
Phnom Penh, Cambodia	2
Teresina, Brazil	1
Sakrand, Pakistan	0
Madhyapur Thimi, Nepal	0
uMhlathuze, South Africa	0
Yangon, Myanmar	0
Accra, Ghana	2
Port-au-Prince, Haiti	5
Makueni County, Kenya	0

12
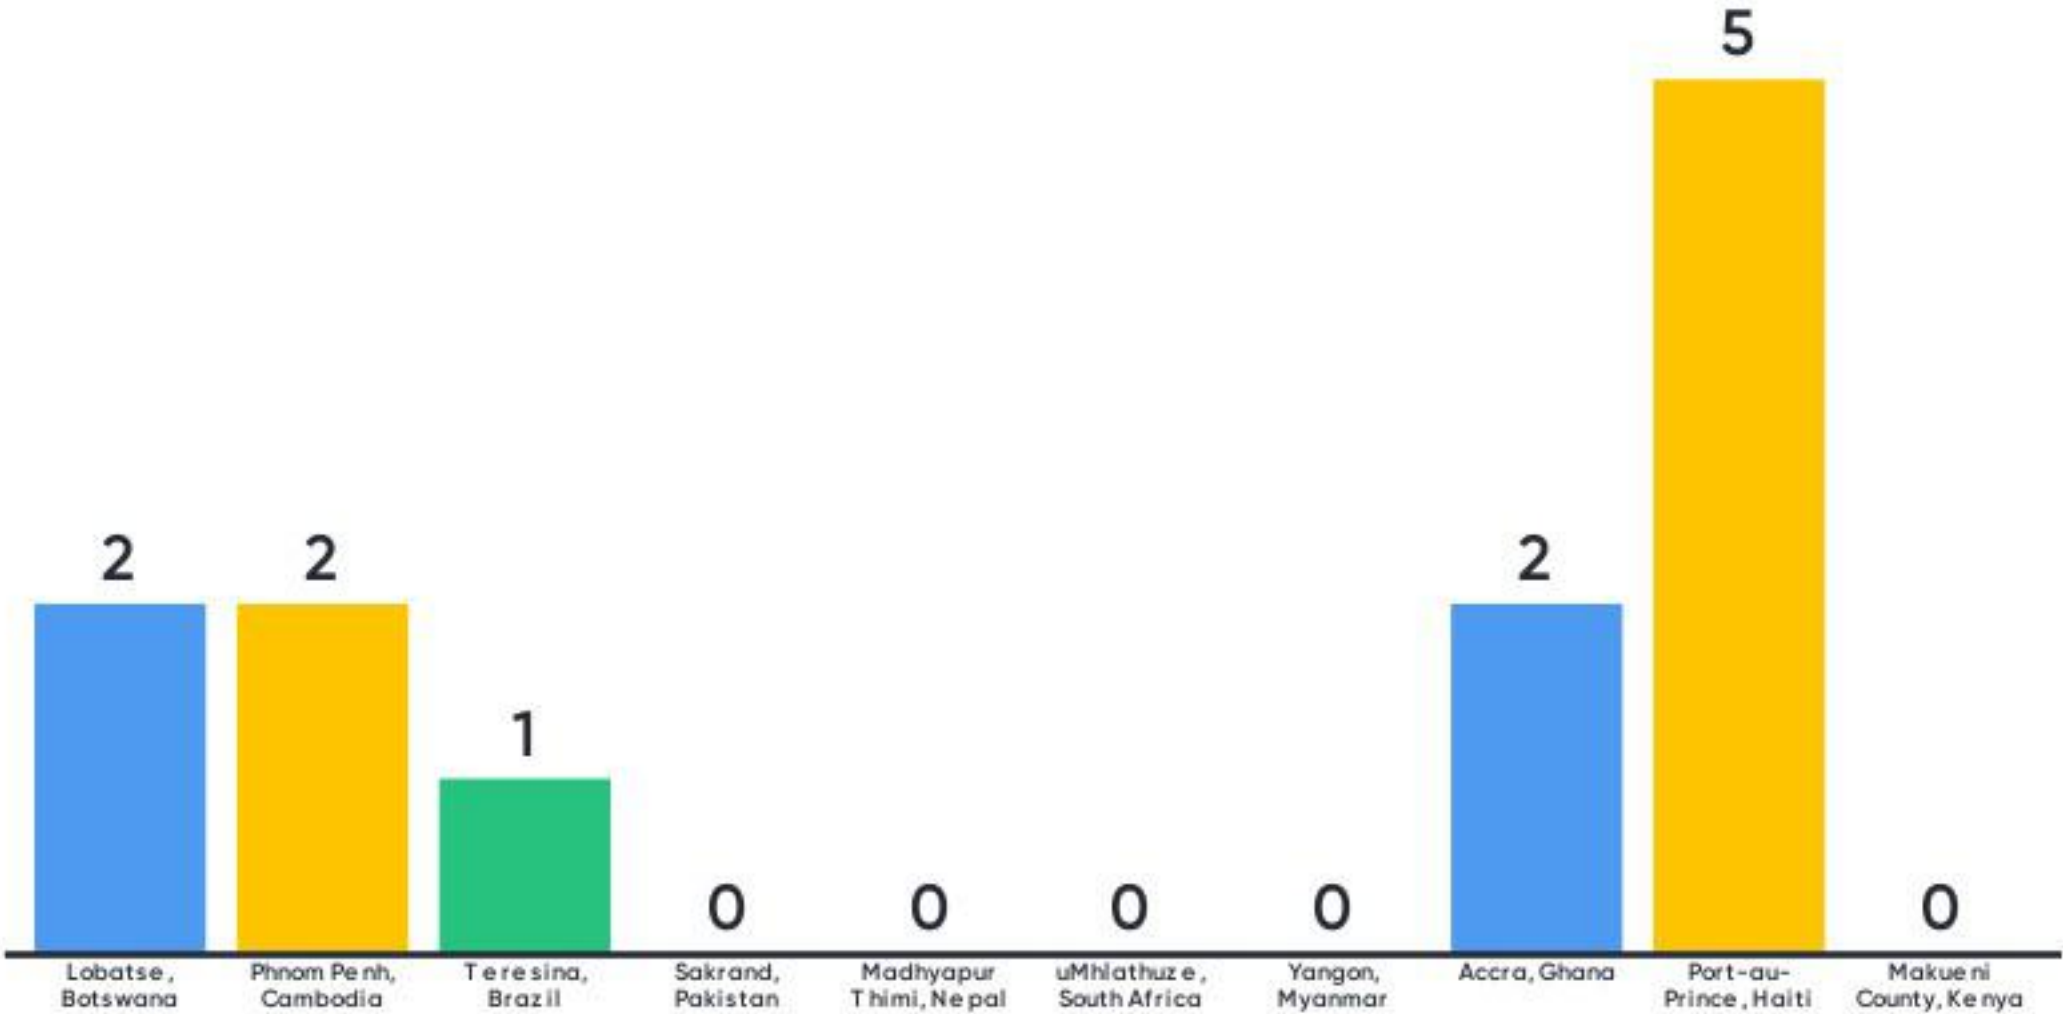

Which case study provided you with useful and replicable ideas? (Choose up to 2)

Mentimeter

Location	Count
Lobatse, Botswana	1
Phnom Penh, Cambodia	1
Teresina, Brazil	5
Sakrand, Pakistan	1
Madhyapur Thimi, Nepal	3
uMhlathuze, South Africa	4
Yangon, Myanmar	0
Accra, Ghana	0
Port-au-Prince, Haiti	0
Makueni County, Kenya	6

👤 12

How much do you agree with the following statements?

Mentimeter

Strongly disagree / **Strongly agree**

Most of the challenges discussed are pertinent to my town/city — **4.2**

The case study presentations gave me practical ideas on how to approach climate change-related issues in my town/city — **4.1**

The length of the case study presentations were appropriate — **4**

👤 13
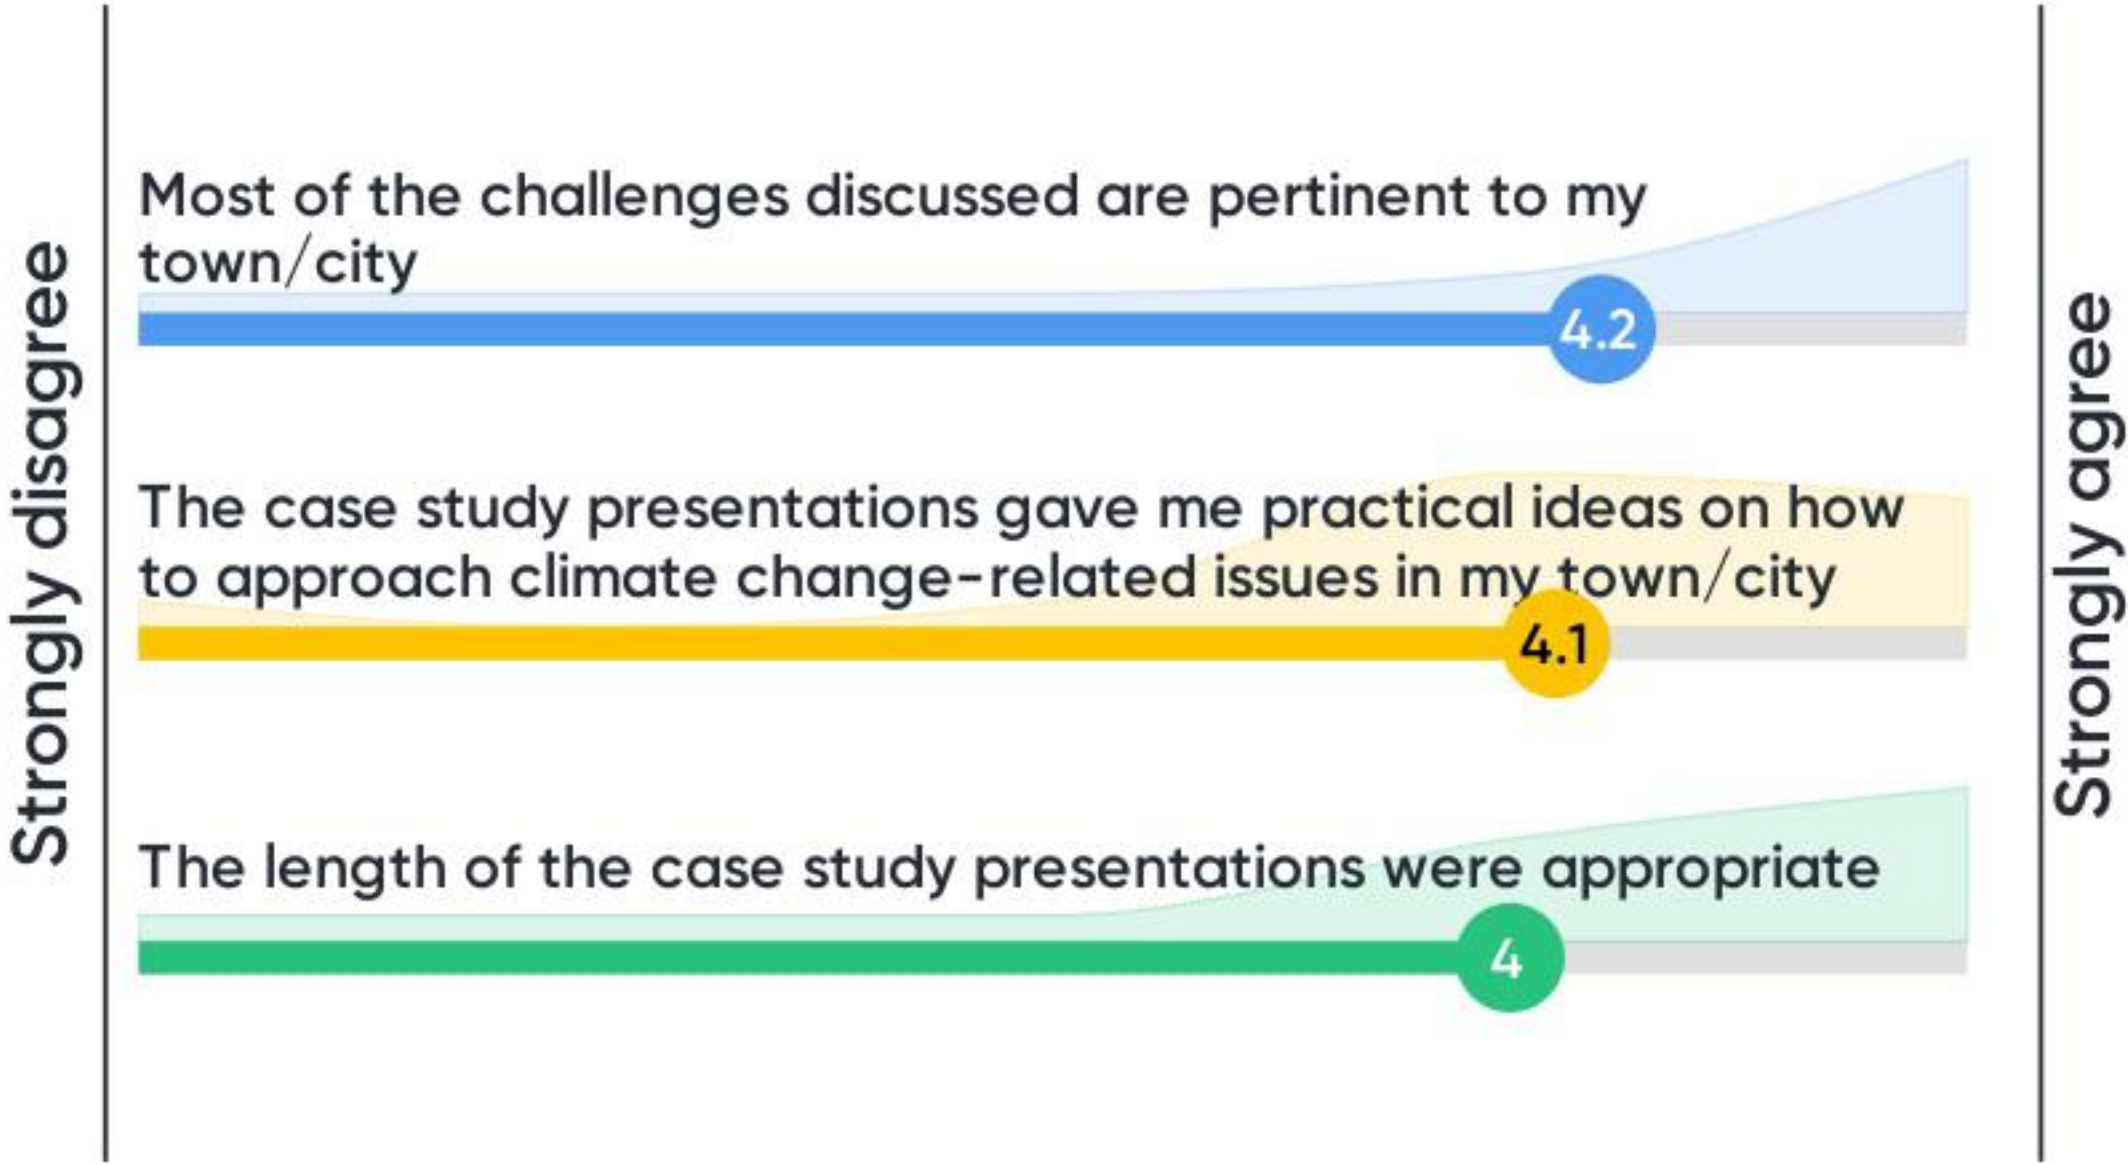

What is your main takeaway from the case studies today?

Experience and knowledge from other countries challenges on cc

We are in this together

Multiple approaches but one common thread seeking sustainability in different forms and dimensions.

Plan, think big, start small

Climate action requires local, national and global response

Climate change action should bena day to day activity, importance of collaborative action. Cities need to have designated champions for climate change to be institutionalised.

Not one size fits all solutions. Need to analyze, to advocate and be creative about finding the means to implement solutions

I learned a lot from this, especially experiences that have been done.

Common challenges in different cultural and nqtural settings Importance legislation and implementation Problems are comprehensive so we need for comrehensive solutions

12

What is your main takeaway from the case studies today?

problems in most case studies are similar which is real.It should applied in own awy.

Most csses are similar . I takeaway the opinion how to take techniques and cooperation with institutions.

Every city has the tools it needs to implement climate action
